FY13 I.F. Distribution Criteria

- Proposed guidelines for making disbursements from SBOC Investment Fund (IF) for FY2013
-
- The Board will assume that data in the CRAS system is accurate and rely on that data for making determinations. Each county will be responsible for insuring the accuracy of its data in the CRAS system.
-
- The Board will not distribute amounts from the IF to a county jail that exceed the amounts requested by the county as of 12/31/2012.
-
- The Board will not distribute amounts to the extent those amounts would result in a projected positive net operating income for the county jail for FY2013.
-
- The Board will not distribute amounts to a county jail to the extent the jail had a surplus as of 12/31/2012 unless the jail's actual average daily prisoners (ADP) exceeds its budgeted ADP. If the actual ADP exceeds the budgeted ADP, the Board will consider this fact when determining whether and to what extent it makes a disbursement to that county jail.
