1.02 PAYMENT UNDER PILOT PROJECTS

Payment of medical costs for a work related injury made pursuant to a comprehensive health insurance policy created pursuant to 39-A M.R.S. §403(2) shall be considered a payment under a decision pursuant to a petition for purposes of 39-A M.R.S. §306.

1.04 REIMBURSEMENT

1. An employer/insurer is not liable under the Workers' Compensation Act for charges for health care services to an injured employee in excess of amounts listed in Appendices III, IV, or V of this chapter.

2. The employer/insurer shall pay the health care provider's usual and customary charge or the maximum allowable payment under this Medical Fee Schedule, whichever is less, within 30 days of receipt of a properly coded bill unless the bill or previous bills from the same

health care provider or the underlying injury has been controverted or denied. If an employer/insurer controverts whether a health care provider's bill is reasonable and proper under § 206 of the Act, the employer/insurer shall send a copy of the notice of controversy to the health care provider.

3. Payment of a medical bill is not an admission by the employer/insurer as to the reasonableness of subsequent medical bills.

1.05 MEDICAL EXAMINATIONS

Medical examinations not for purposes of treatment are not subject to this Medical Fee Schedule.

1.06 BILLING PROCEDURES

1. Bills submitted by employees, their representatives or health care providers to employers/insurers for reimbursement of medical services must specify the date and type of service, the appropriate procedure code, the condition treated, and the charges for each service.

   Bills properly submitted on forms mandated by the Bureau of Insurance pursuant to 24-A M.R.S. §2753 shall be sufficient to comply with this requirement. Uncoded bills may be returned for coding.

2. The amount billed for a procedure, for which the Medical Fee Schedule does not provide a maximum allowable payment amount, as indicated by a "BR," shall be justified by a written report. The health care provider may not charge a fee for this report.

3. The employer/insurer shall undertake reasonable investigations to ascertain whether a service is subject to the maximum allowable payment contained in the Medical Fee Schedule. When there is a dispute regarding medical bills and the provision of medical services, the employer/insurer shall pay the undisputed amount, if any.

   The employer/insurer shall send written notice to the health care provider from whom the bill originated that the requested fee has been adjusted and the explanation for such adjustment. Notice is not required when bills are reduced to the fee schedule maximum allowable payment.

   The notification to the health care provider shall be made at the time the employer/insurer pays the fee to which it believes the health care provider is entitled.

4. If the health care provider disputes any payment received or denied, the health care provider, employee or other interested party shall be entitled to file Form 190 or 190(A), Petition to Fix the Amount to be Allowed.

   Any health care provider, employee, or other interested party shall be entitled to file Form 190 or Form 190(A) for determination of any issue regarding medical services and/or medical billing.

   Forms 190 and 190 (A) may be obtained by contacting the Workers' Compensation Board, Office of Medical/Rehabilitation Services, 27 State House Station, Augusta, Maine 04333-0027, Tel: 207-287-7080.

   Health care providers, employees or other interested parties are permitted to reproduce Forms 190 and 190 (A) in Appendix II for their use.

5. The injured employee is not liable for payment of any health care services for the treatment of a work-related injury or disease. Except as provided by 39-A M.R.S. §206(2) (B), the health care provider may charge the patient directly only for the

treatment of conditions that are unrelated to the compensable injury or disease. See 39-A M.R.S. §206 (13).

NOTE: Health care providers may use the most current procedure codes when billing workers' compensation claims. If the codes utilized are not included in the current Medical Fee Schedule, the item will be considered a "BR" procedure, one which is not assigned a maximum allowable payment, and must be justified by report.

1.07 FEES FOR REPORTS

   A. Actual, reasonable and necessary travel costs. Travel costs must be agreed upon in advance by the employer/insurer.

   B. Actual and necessary travel time shall be reimbursed at $300.00 per hour.

   These reimbursement levels apply when a deposition is more than ten miles from the health care provider's home base.

4. Health care providers shall receive a maximum of $350.00 per canceled deposition when the cancellation occurs less than 24 hours prior to the scheduled start of the deposition. Health care providers shall receive a maximum of $300 per canceled deposition when the cancellation takes place less than 48 but more than 24 hours prior to the scheduled start of the deposition. The party canceling the deposition is responsible for the incurred cost.

2. Permanent Impairment examinations performed by the employee's treating health care provider will have a maximum charge of $450.00.

SECTION 2. PROFESSIONAL SERVICES

2.01 PAYMENT FOR PROFESSIONAL SERVICES

Payments for professional services are based on the Medicare Resource Based Relative Value System. Payments are calculated for procedure codes by multiplying the applicable conversion factor times the Work relative value unit plus the PE relative value unit plus the MP relative value unit. The conversion factor for anesthesia codes is $50.00.

2.02 PROCEDURE CODES

1. For purposes of this section, health care services shall be identified by current procedural terminology codes (CPT® codes) and descriptions listed in the 2005edition of the *Current Procedural Terminology* published by the American Medical Association, P.O. Box 10946, Chicago, Illinois.

2. The Maine Workers' Compensation Medical Fee Schedule includes data that is proprietary to the American Medical Association, therefore, certain restrictions apply. These restrictions are established by the AMA and are set out below:

   A. The five character codes included in the Maine Workers' Compensation Medical Fee Schedule are obtained from the 2005*Current Procedural Terminology*, Copyright 2004by the American Medical Association (CPT®). CPT® is developed by the AMA as a listing of descriptive terms and five character identifying codes and modifiers for reporting medical services and procedures performed by physicians.

   B. The responsibility for the content of the Maine Workers' Compensation Medical Fee Schedule is with the State of Maine Workers' Compensation Board and no endorsement by the AMA is intended or should be implied. The AMA disclaims responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in the Maine Workers' Compensation Medical Fee Schedule. No fee schedules, basic unit values, relative value guides, conversion factors or scales are included in any part of CPT®. Any use of CPT® outside of the Maine Workers' Compensation Medical Fee Schedule should refer to the most current *Current Procedural Terminology* which contains the complete and most current listing of CPT® codes and descriptive terms. Applicable FARS/DFARS apply.

3. The 2005*Current Procedural Terminology*, Copyright 2004by the American Medical Association (CPT®) is adopted herein by reference.

2.03 MODIFIERS

1. Modifier codes shall be used in the manner set forth in Appendix A of the 2005 edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois.

2. Applicable modifier codes are set forth in Appendix A of the 2005edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois.

2.04 ANESTHESIA GUIDELINES

1. The anesthesia guidelines in the 2005edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois are incorporated by reference into this rule.

2. To be eligible for reimbursement, the anesthesia service shall include: performance of a pre-anesthetic examination and evaluation; prescription of the anesthesia care required; personal participation in, or medical direction of, the entire plan of care; continuous physical presence of the anesthesiologist or, in the case of medical direction, of the qualified individual (one who is qualified to perform those tasks not personally performed by the anesthesiologist, such as a CRNA, resident or other individual authorized by the hospital or facility to perform such services) being medically directed; proximate presence or (in the case of medical direction) availability of the anesthesiologist for diagnosis or treatment of emergencies and medical direction of not more than four concurrent anesthesia procedures.

3. Reimbursement will be determined by the addition of the base unit, time units and modifying units (if any) and multiplying this total value by a conversion factor of $50.00per unit. The definition of the unit components will follow.

4. With respect to anesthesia care team payments for claims from two separate billing entities, the total payment to the anesthesia care team is the same as the payment level for an individually performing anesthesiologist or health care provider, with 50% of the total payment paid to each of the billing entities.

5. **Definition of the Unit Components**

   A. One time unit is allowed for each 15 minute time interval, or fraction thereof (7.5 minutes or more) of anesthesia time. If anesthesia time extends beyond three hours, 1.0 unit for each 10 minutes or significant faction thereof (5 minutes or more) is allowed after the first three hours. Documentation of actual anesthesia time may be required, such as a copy of the anesthesia record in the hospital file.

   B. **Modifying Units**: Physical status modifying units will be reimbursed if the patient is ranked in one of the following:

RANK VALUE	UNIT
P-1 -	0
P-2 -	0
P-3 -	1
P-4 -	2
P-5 -	3
P-6 -	0

Qualifying Circumstances (more than one may be selected): Many anesthesia services are provided under particularly difficult circumstances depending on factors such as the extraordinary condition of the patient, notable operative conditions, and unusual risk factors. This section includes a list of important qualifying circumstances that significantly impact on the character of the anesthetic service provided. These procedures would not be reported alone, but would be reported as additional procedure numbers qualifying as an anesthesia procedure or service.

CPT® VALUE	UNIT
99100 -	1
99116 -	5
99135 -	5
99140 -	2

6. **Reimbursement for Pain Management Services**: Reimbursement for pain management services (evaluation and management, medical or surgical services) will be separate from any reimbursement for anesthesia services. Reimbursement for services for pain management will be based on the appropriate evaluation and management, medical or surgical fee schedule.

7. **Cost Containment**: Nothing in this section shall preclude an employer/insurer from entering into payment agreements to promote the continuity of care and the reduction of health care costs. Such payment agreements, if less, will supersede the limitation amounts specified herein.

8. **Supplemental Skills**: When warranted by the necessity of supplemental skills, values for the services of two or more health care providers and/or anesthetists will be allowed. Substantiate by report.

9. **Monitoring Services**: When an anesthesiologist or anesthetist is required to participate in and be responsible for monitoring the general care of the patient during a surgical procedure but does not administer anesthesia, these services are charged on the basis of the extent of the services rendered. Payment is to be made on the basis of the time units the anesthesiologist or anesthetist is in constant attendance for the sole purpose of the monitoring services; Relative Unit Values are not to be added.

10. **Anesthesia Administered**, Other Than By An Anesthesiologist or Anesthetist: Anesthesia fees are not payable when local infiltration, digital block, or topical anesthesia is administered by the operating surgeon or surgical assistants. Such services are included in the Unit Value for the surgical procedure.

11. **Other Fees**: The Unit Values for surgery, X-rays, laboratory procedures, consultation and other medical services, and office and hospital visits are listed in the following sections: Surgery, Radiology, Pathology, Medicine and Other. A consultation fee is not payable to an anesthesiologist examining the patient prior to administering anesthesia to that patient. No additional charge is to be made for routine follow-up care and observation.

12. **Special Report**: A service that is rarely provided, unusual, variable, or new may require a special report in determining medical appropriateness of the service. Pertinent information should include an adequate definition of description of the nature, extent, and need for the procedure, and the time, effort, and equipment necessary to provide the service. Additional items which may be included are:

    - Complexity of symptoms
    - Final diagnosis
    - Pertinent physical findings (such as size, locations, and number of lesion(s), if appropriate)

- Diagnostic and therapeutic procedures (including major and supplementary surgical procedures, if appropriate)
- Concurrent problems
- Follow-up care

13. **Calculation Examples**

A. In a procedure with a Relative Value Unit of 3.0 requiring one hour of anesthesia time, the total value should be determined as follows:

Base Unit	3.0 units
60 min divided by 15 min	+ 4.0 units
Total value	= 7.0 units

B. In a procedure with a Relative Value Unit of 10.0 requiring four hours and thirty minutes of anesthesia time, the total value should be determined as follows:

Relative Value Unit	10.0 units
First three hours	+ 12.0 units
Subsequent 90 minutes	+ 9.0 units
Total value	= 31.0 units

C. In both cases, the maximum allowable payment is determined by multiplying the total value units by the conversion factor. In billing, list the Relative Value Unit (showing the procedure code and all modifiers) and Time Units separately, as in the following:

Procedure Code + Modifier(s)	= Base Unit
Anesthesia Time	=Time Units
Total Value	=Total Units

Total units X Conversion Factor = Maximum Allowable Fee

CONVERSION FACTOR = $50.00

2.05 SURGICAL GUIDELINES

1. The surgical guidelines in the 2005edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois are incorporated by reference into this rule.

2. For surgical procedures that usually mandate a variety of attendant services, the reimbursement allowances are based on a global reimbursement concept. Global reimbursement covers the performance of the basic service and the normal range of care required before and after surgery. The normal range of post-surgical care is indicated under “FUD” in Appendix III. A surgical procedure shall include all of the following:

A. All office and hospital visits which occur after the need for surgery is determined and are related to or preparatory to the surgery.

B. Surgery.

C. Post surgical care. The number of follow-up days is indicated in the Medical Fee Schedule which will determine the normal range of post surgical care for that particular procedure.

D. Removal of sutures.

3. An office visit shall not be billed in addition to the surgical procedure when the principal function of the office visit is the determination that the surgical procedure is needed.

4. The following four exceptions to the global reimbursement policy may warrant additional reimbursement for services provided before surgery:

A. When a pre-operative visit is the initial visit and prolonged detention or evaluation is necessary to prepare the patient or to establish the need for a particular type of surgery.

B. When the pre-operative visit is a Consultation.

C. When pre-operative services are provided that are usually not part of the preparation for a particular surgical procedure. For example, bronchoscopy prior to chest surgery.

D. When a procedure would normally be performed in the office, but circumstances mandate hospitalization.

5. Additional charges and reimbursement may be warranted for additional services rendered to treat complications, exacerbation, recurrence, or other diseases and injuries. Under such circumstances, additional reimbursement may be requested. Documentation substantiating the medical necessity of the additional services rendered must be submitted with the medical bill.

6. An incidental surgery which is not part of the primary procedure performed and for which there is no diagnostic evidence relating it to the injury, shall not be paid under the Workers' Compensation system.

7. Reimbursement for the concurrent services of two or more health care providers may be warranted for:

A. **Identifiable medical services provided preoperatively**, during the surgical procedure or in the post-operative period.

B. **Modifier -80** shall identify the procedure or the procedures which may be performed by the Surgical Assistant. Reimbursement for surgical assistants is limited to health care providers who assist with surgery and must not exceed 25% of the total surgical procedure.

C. **Two Surgeons**

(1) Under certain circumstances, the skills of two surgeons (usually with different specialties) may be required to complete a surgery. For example, a neurosurgeon and an orthopedist to complete a laminectomy and an arthrodesis.

(2) Reimbursement will be made according to the information on the health care provider's medical bill and the substantiating documentation submitted. Each provider must submit an individual claim for services.

D. **A Surgical Team**. Some highly complex procedures require the concomitant services of several physicians, often of different specialties. Such complex services may also involve other highly skilled and specially trained personnel, as well as various types of sophisticated equipment. This type of complicated procedure may be carried out under the "surgical team" concept with a single, global reimbursement for the total service. The services included in the global reimbursement vary widely. The charges should be supported "By Report" and include itemization of the physician services, paramedical personnel and equipment included in the charge.

8. **Multiple or Bilateral Procedures**

A. When multiple or bilateral procedures are provided at the same operative session, the first major procedure should be coded as listed on one line of the HCFA 1500 claim form and the additional procedure(s) on the following line(s) with modifier -50 or -51.

B. The total reimbursement for all services shall be the maximum reimbursement allowance of the major procedure in addition to 50% for the secondary procedure, 25% for the tertiary procedure and 10% for each lesser procedure thereafter. The lesser procedure(s) should be coded using the appropriate modifier -50 (bilateral procedure) or -51 (multiple procedures).

C. Except when specifically stated, initial dressings, immobilization, or casting is included in the basic allowance for the basic procedure.

9. **Primary, Secondary, or Delayed procedures**: A primary procedure is one that is attempted or performed for the first time, irrespective of the relationship to the date of injury or the onset of the condition being treated. Secondary refers to a procedure performed when a condition has been previously treated. Delayed procedures have the same maximum allowable fee as the primary procedure.

2.06 RADIOLOGY GUIDELINES

1. The radiology guidelines in the 2005edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois are incorporated by reference into this rule.

2. The maximum allowable payment for a radiology procedure includes the professional component identified by the modifier -26 and the technical component identified by the modifier -TC. These are found in Appendix III under Radiology.

3. Bills from one entity do not need to indicate the breakdown of the technical and professional components. These charges shall be reimbursed as indicated by the total maximum allowable payment in radiology.

4. When two bills are submitted for radiological procedure, the professional component shall be identified by using modifier -26. The technical component, identified by modifier -TC, covers materials and facilities/space for the diagnostic or therapeutic service.

5. Billings for radiologic services are not reimbursable without a report of findings.

6. Duplication of X-Rays: Every attempt should be made to minimize the number of X-Rays taken. The treating health care provider or any other person or institution having

possession of X-rays, which pertain to the patient and are deemed to be needed for diagnostic or treatment purposes, should make those X-rays available upon request.

2.07 PHYSICAL MEDICINE GUIDELINES

1. The physical medicine guidelines in the 2005edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois are incorporated by reference into this rule.
2. Reimbursement of physical medicine services, procedure code 97010-97999, applies when the care is provided by, under the direct supervision of or upon written referral by the treating health care provider defined in section 1.04(9)of this rule and when the care provided is within the scope of the health care provider's license.
3. The license number, certificate number, or National Provider Identifier of the health care provider providing physical medicine services shall be included on each bill for services rendered.
4. **Separate Procedures**: Some listed procedures are commonly carried out as an integral part of a total service and do not warrant a separate identification. When such a procedure is performed independently of other services to which the procedure is not immediately related, the maximum allowable payment in the Medical Fee Schedule is applicable for the "separate procedure" where identified as such.
5. **Concurrent Care**: When the condition of the patient requires the skills of two or more health care providers to treat different conditions, payment is due each health care provider who plays an active role in the treatment program. The services rendered by each provider shall be distinct, identifiable and adequately documented in the records and reports.
6. **Alternating Health Care Providers**: When health care providers of similar skills alternate in the care of a patient (e.g., partners of the same facility, covering health care providers on weekends or vacation periods), each health care provider shall charge individually for the services personally rendered and such charges shall be in accordance with the Medical Fee Schedule.
7. **Failure of a Patient to Keep a Scheduled Appointment**: In the event a patient fails to keep a scheduled appointment, the health care provider is not to bill for any services that would have been provided by said appointment nor shall there be any reimbursement for such scheduled services. This rule does not apply with regard to a deposition, testimony or Section 312 IME.

2.08 DURABLE MEDICAL EQUIPMENT AND SUPPLIES

1. The employer/insurer shall pay for the purchase or rental of all compensable durable medical equipment, medical supplies and other devices that are ordered and approved by the treating health care provider. Reimbursement is set at the actual amount paid plus 20% or $500.00, whichever is less.
2. Durable medical equipment is equipment that:
    a. can withstand repeated use;
    b. is primarily and customarily used to serve a medical purpose;
    c. generally is not useful to a person in the absence of illness or injury; and
    d. is appropriate for use in the home.

3. All requirements of the definition must be met before an item is considered to be durable medical equipment.
4. Medical supplies of an expendable nature such as incontinent pads, lambs wool pads, catheters, ace bandages, elastic stockings, surgical face masks, irrigating kits, sheets and bags are not considered “durable” within the meaning of the definition. There are other items which, although durable in nature, may fall into other coverage categories such as braces, prosthetic devices, artificial arms, legs and eyes.
5. Health care providers shall submit a substantiating invoice for any durable medical equipment, medical supply or device with a price greater than $100.00 or upon the request of the employer/insurer.

SECTION 3. INPATIENT FACILITY FEES

3.01 BILLING

Bills for inpatient services must be submitted on a CMS Uniform Billing (UB-04) form.

3.02 CRITICAL ACCESS HOSPITALS

Payments for inpatient services in a critical access hospital are based on the MS-DRG system. The payment is calculated by multiplying the base rate times the MS-DRG weight. The base rate for inpatient services at critical access hospitals is $10,907.00.

3.03 ACUTE CARE HOSPITALS

Payments for inpatient services in an acute care hospital are based on the MS-DRG system. The payment is calculated by multiplying the base rate times the MS-DRG weight. The base rate for inpatient services at acute care hospitals is $8,923.00.

3.04 MAXIMUM REIMBURSEMENT

Except as provided in subsections 3.05 and 3.06, acute care hospitals shall be paid the maximum allowable payment established in Appendix IV or its usual and customary charge, whichever is less, for inpatient services.

3.05 OUTLIER PAYMENTS

The threshold for outlier payments is $75,000.00 plus the maximum allowable payment established in Appendix IV. If the outlier threshold is met, the outlier payment must be the maximum allowable payment plus the charges above the sum of the threshold and the maximum allowable payment multiplied by 75%.The total payment for the services is the outlier payment plus the maximum allowable payment.

3.06 IMPLANTABLES

Where an implantable exceeds $10,000 in cost, acute care hospitals may seek additional reimbursement beyond the maximum allowable charge. Reimbursement is set at the actual amount paid plus 20%or $500.00, whichever is less. When an acute care hospital seeks additional reimbursement pursuant to this rule, the implantable charge is excluded from any calculation for an outlier payment. Handling and freight charges must be included in the acute care hospital's invoiced cost and are not to be reimbursed separately.

3.07 SERVICES INCLUDED

All services provided during an uninterrupted patient encounter leading to an inpatient admittance must be included in the inpatient stay.

3.08 FACILITY TRANSFERS

The following applies to facility transfers when a patient is transferred for continuation of medical treatment between two acute care hospitals:

1. A hospital transferring a patient is paid as follows: The MS-DRG reimbursement amount is divided by the number of days duration listed for the DRG; the resultant per diem amount is then multiplied by two for the first day of stay at the transferring hospital; the per diem amount is multiplied by one for each subsequent day of stay at the transferring hospital; and the amounts for each day of stay at the transferring hospital are totaled. If the result is greater than the MS-DRG reimbursement amount, the transferring hospital is paid the MS-DRG reimbursement amount. Associated outliers and add-ons are then added to the payment.
2. A hospital discharging a patient is paid the full MS-DRG payment plus any appropriate outliers and add-ons.
3. Facility transfers do not include costs related to transportation of a patient to obtain medical care.

3.09 PAYMENT FOR SERVICES WITHOUT A MAXIMUM CHARGE

Services provided by an acute care hospital that do not have a maximum charge in Appendix IV shall be paid at 75% of the hospital's usual and customary charge.

3.10 OTHER INPATIENT FACILITY FEES

Services provided at specialty hospitals shall be reimbursed using the 2007 Medicare pricer tool for the appropriate specialty hospital found at www.cms.gov/PCPricer/. The maximum reimbursement shall be the Grand Total Amount multiplied by 170%.Payment shall be made within 30 days after the specialty hospital provides the required medical and billing information.

3.11 PROFESSIONAL SERVICES NOT INCLUDED

Individual health care providers who furnish professional services in an inpatient setting must bill employers/insurers directly and must be reimbursed using the maximum fees set forth in Appendix III. The individual health care provider's charges are excluded from any calculation of outlier payments.

SECTION 4. OUTPATIENT AND AMBULATORY SURGICAL CENTERS

4.01 BILLING

Bills for outpatient and ASC services must be submitted on a CMS Uniform Billing (UB-04) form.

4.02 BASE RATE FOR ACUTE CARE HOSPITALS

The base rate for outpatient services at acute care hospitals is $108.42.

4.03 BASE RATE FOR CRITICAL ACCESS HOSPITALS

The base rate for outpatient services at critical access hospitals is $132.53.

4.04 BASE RATE FOR AMBULATORY SURGICAL CENTERS

The base rate for outpatient services at ambulatory surgical centers is $81.32.

4.05 OBSERVATION INCLUDED

Outpatient services include observation in an outpatient status.

4.06 MAXIMUM REIMBURSEMENT

Except as provided in subsections 4.07 and 4.08, acute care hospitals and ambulatory surgical centers shall be paid the maximum allowable payment established in Appendix V or its usual and customary charge, whichever is less, for outpatient services.

4.07 PAYMENT CALCULATION

Payments for outpatient services in an outpatient hospital or an ambulatory surgical center are based on the APC system. The payment must be calculated by multiplying the base rate times the APC weight.

1. If the ACH Rate, CAH Rate or ASC Rate is listed as$0.00 or null for a procedure code with status indicator of A, B, C, D, E, F, K, L, M, Q, S, T, V, X, Y then reimbursement must be paid at 75% of usual and customary charges. For procedure codes with a status indicator of N or services with no CPT®/HCPCS code, there is no separate payment.
2. When two or more services with a status indicator of T are billed on the same date of service, the highest weighted code is paid at 100% of the APC payment and subsequent T status code items are paid at 50% of the APC payment.
3. Procedure codes with a “Q” status indicator will not be discounted.

4.08 OUTLIERS

The threshold for outlier payments is $2,500.00 per procedure code plus the maximum allowable charge as defined in paragraph 4.06.If the outlier threshold is met, the outlier payment must be the maximum allowable charge as defined in paragraph 4.06, plus the charges above the threshold multiplied by 75%.

4.09 IMPLANTABLES

Where an implantable exceeds $250.00 in cost, hospitals or ambulatory surgical centers may seek additional reimbursement. Reimbursement is set at the actual amount paid plus 20%or $500.00, whichever is less. When an ambulatory surgical center or hospital seeks additional reimbursement pursuant to this rule, the implantable charge is excluded from any calculation for an outlier payment. Handling and freight charges must be included in the facility's invoiced cost and are not to be reimbursed separately.

4.10 TRANSFERS

The following applies to patient transfers from an acute care hospital or ambulatory surgical center to an acute care hospital:

1. An acute care hospital or ambulatory surgical center transferring a patient is paid the maximum allowable charge established in this section.
2. The acute care hospital to which the patient is transferred is paid the maximum allowable charge established in section 3.
3. Facility transfers do not include costs related to transportation of a patient to obtain medical care.

4.11 PROFESSIONAL SERVICES NOT INCLUDED

Individual health care providers who furnish professional services in a hospital, ASC, or other facility setting must bill insurers directly and must be reimbursed using the maximum fees set forth in Appendix III. The individual medical provider’s charges are excluded from any calculation of outlier payments.
