LITTLE ROUND POND Mount Desert Twp., Hancock Co. U.S.G.S. (Southwest Harbor, ME 7 1/2')

Fishes

Chain pickerel Pumpkinseed sunfish White sucker

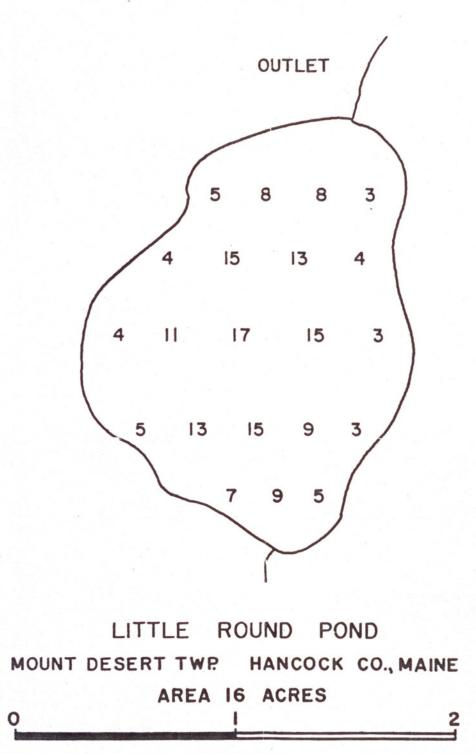

Physical Characteristics

Area- 1	Temperatures						
				Sui	face-	80°F	
Maximum	depth-	17	feet	16	feet-	57°F	

Principal Fishery: Chain pickerel

This small, relatively shallow pond located near Oak Hill on Mt. Desert Island supports a modest pickerel population. Neither the numbers or average size of this warm water sportfish are especially noteworthy. The lack of sufficient volume of cold water in the summer precludes management for brook trout.

Surveyed- August, 1970 (Revised, 1994) Maine Department of Inland Fisheries and Wildlife Funded in part by the Federal Aid in Restoration Act under Federal Project F-28-P L 4618 C
