Redbelly dace	American eel

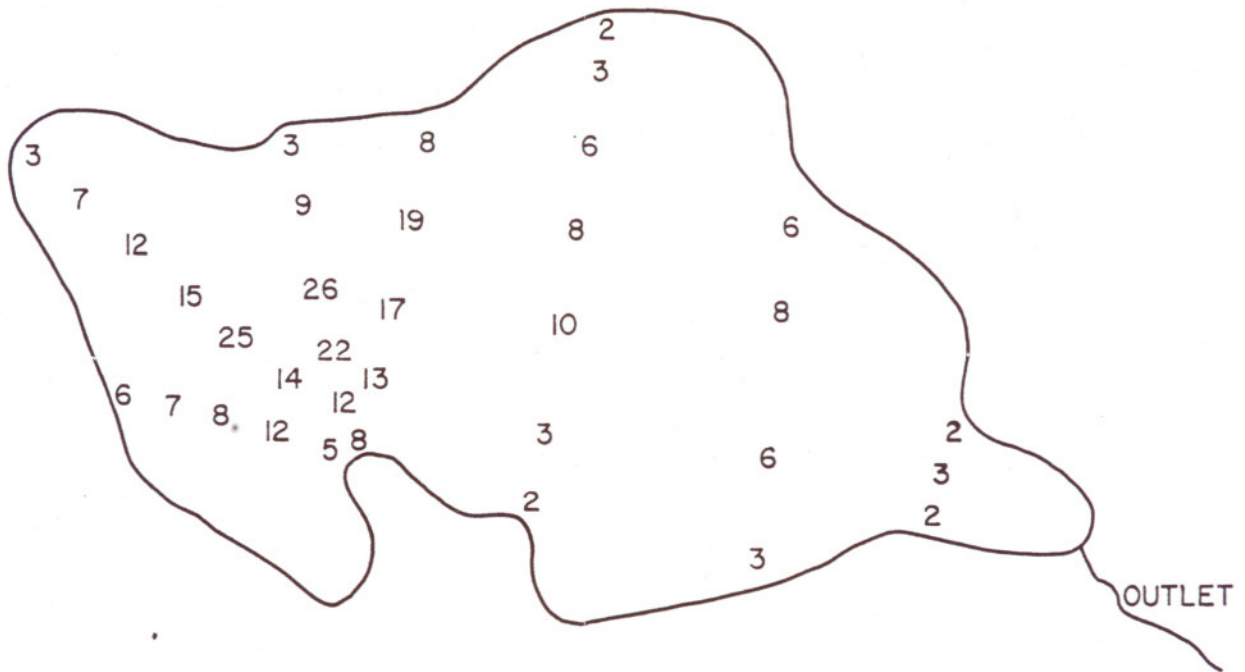

Physical Characteristics

Area- 17 acres	Temperatures
	Surface- 77°F
Maximum depth- 26 feet	26 feet- 49°F

Principal Fishery: Brook trout

Goulding Lake is a small water located in eastern Washington County. Access is via a dirt road maintained by the town of Robbinston. A suitable area is present to launch a canoe/small boat.

The lake provides a satisfactory trout fishery which is maintained through annual stockings of fall fingerlings. Age I+ fish from 8-10 inches provide the bulk of the fishery, but some Age II+ fish from 12-15 inches are caught each year. Because this lake receives light-moderate use in the open water season, it is open to ice fishing.
