##### Organized Towns

##### Developed

Impervious surfaces including buildings and roads.

##### Atlantic Salmon Habitat

Reflects surveys on selected Maine streams.

##### Wild Brook Trout Priority Conservation Areas

Reflects surveys on selected Maine streams.

##### Wetlands

National Wetlands Inventory (NWI) uses aerial photographs to approximate wetland locations. NWI data typically under represents the presence of wetlands on the landscape. Areas are delineated by ME Dep. of Environmental Protection's Mandatory Shoreland Zoning Act, which includes areas within 250 feet of great ponds, rivers, and wetlands, and within 75 feet of streams. The regulations within each shoreland zone depends on the town, and towns may regulate greater areas than what is shown here.
