

## C POND

C Surplus, Oxford County  
U.S.G.S. B Pond and Andover, Maine (7½')

### Fishes

Brook trout	Creek chub
Rainbow smelt	Fallfish (chub)
Minnnows	Hornpout (bullhead)
Lake chub	Slimy sculpin
Common shiner	American eel

### Physical Characteristics

Area - 173 acres	Temperatures
	Surface - 70°F
Maximum depth - 36 feet	33 feet - 55°F

Principal fisheries: Brook trout

C Pond is located south of C Bluff Mountain. A small inlet enters the east side of the pond and its outlet, the Dead Cambridge River, flows west into Umbagog Lake. The pond's shoreline is mostly undeveloped.

Water quality in C Pond is marginal for coldwater gamefish. Nonetheless, there is a population of native brook trout present. Good spawning and nursery habitat in the inlet and outlet allows

the trout to maintain sufficient numbers for a fishery. Growth is good despite competition from other fish species. The pond is not stocked.

C Pond is accessible via a gated logging roads off Route 16. The pond is open to fishing with artificial lures only in the summer and closed to fishing in the winter months.

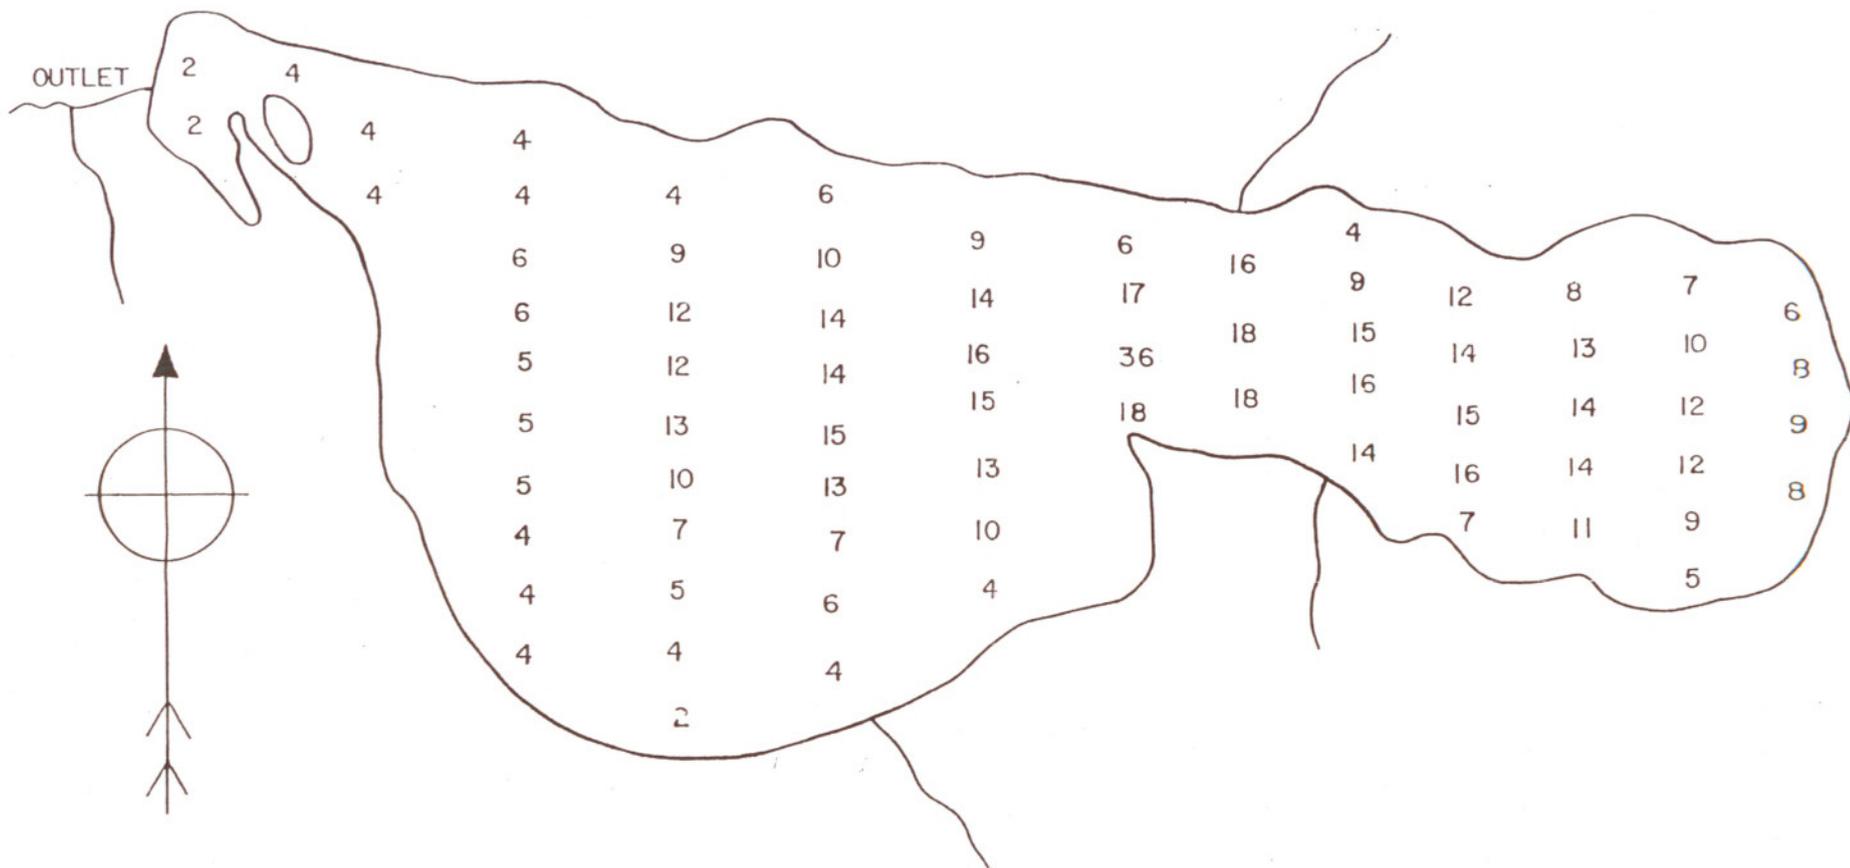

Surveyed - July, 1954

Resurveyed - 1978, 1998
