

HOT POND  
T6 R6, T6 R7, Penobscot Co.  
U. S. G. S. Shin Pond, Me.

Fishes

Yellow perch	Eel
Chain pickerel	White sucker
Hornpout (bullhead)	Minnows

Physical Characteristics

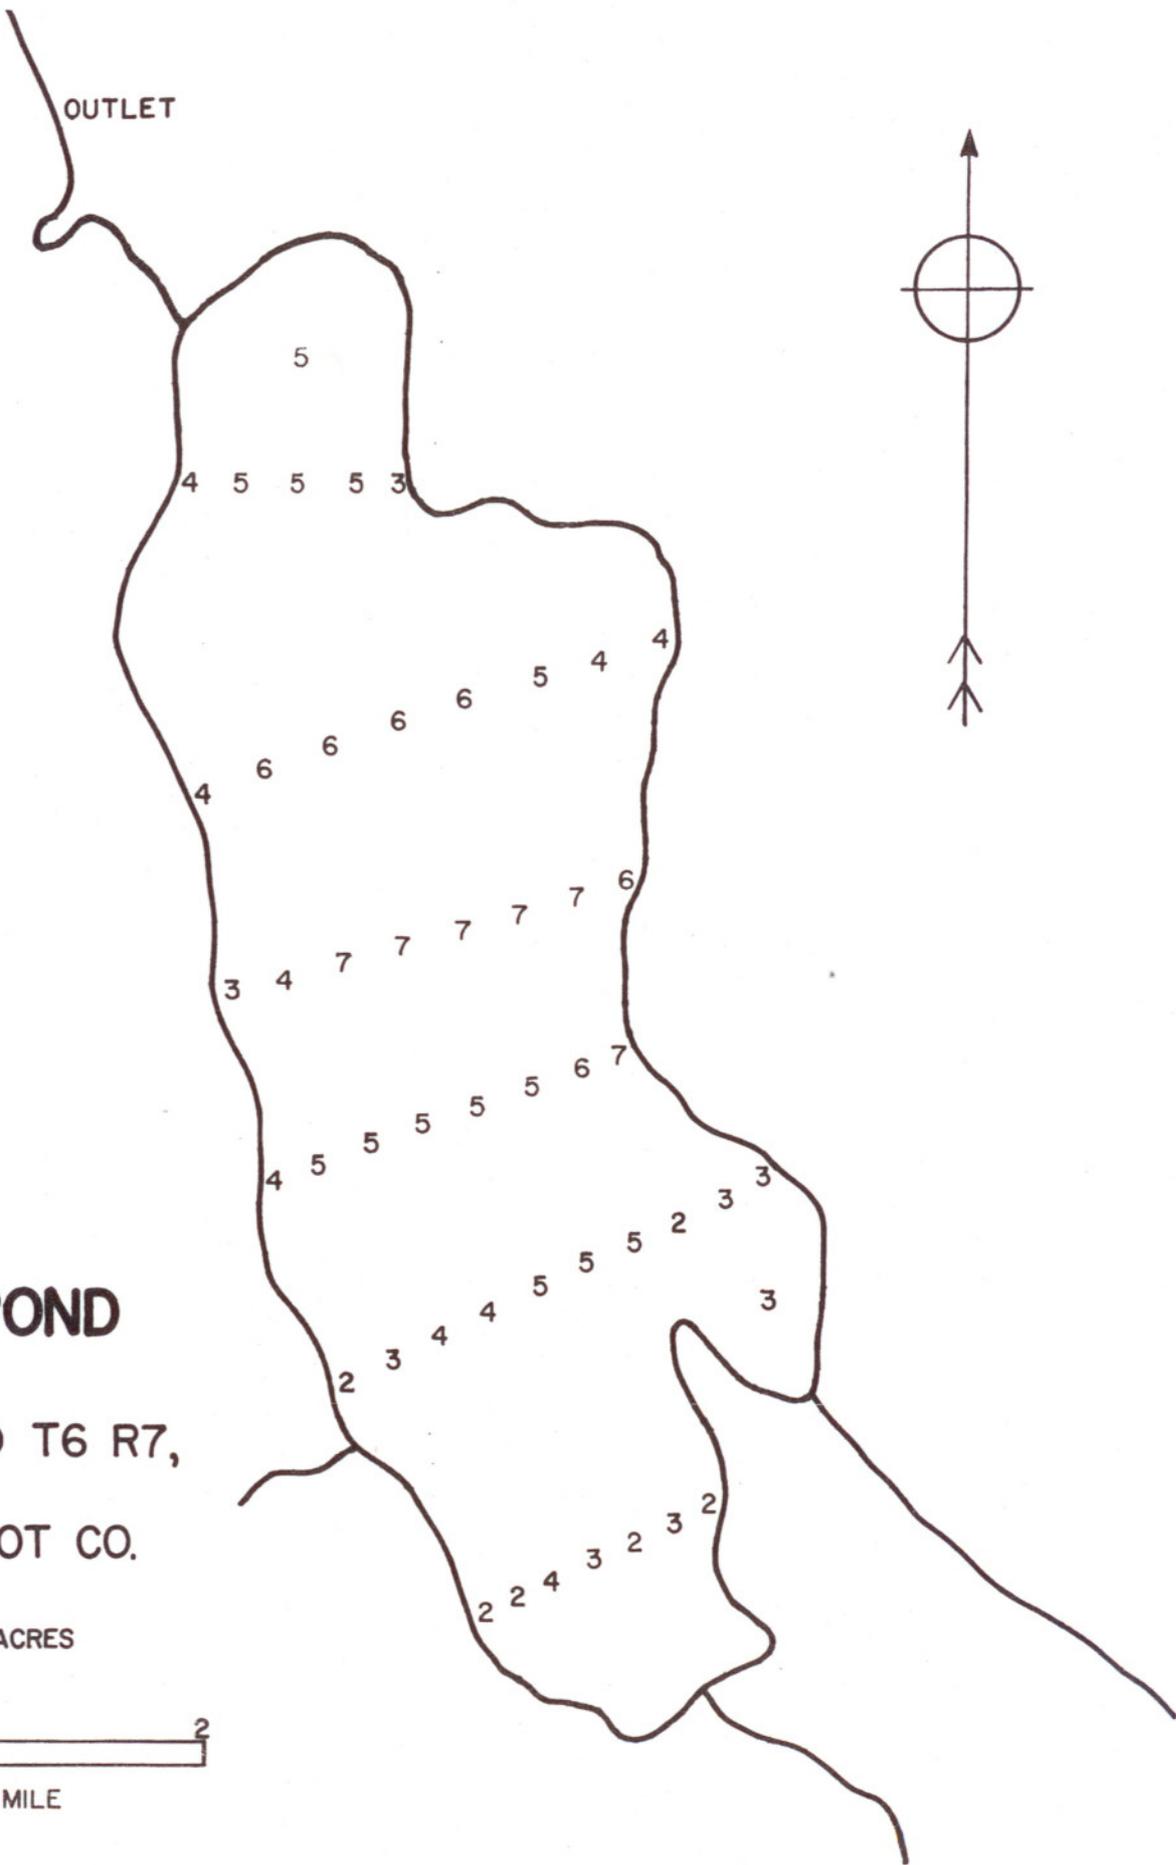

Area - 70 acres	Temperatures
Maximum depth - 7 feet	Surface - 66° F.
	5 feet - 64° F.

Suggested Management

Hot Pond is considered good chain pickerel habitat. The pond is shallow and weedy with suitable water temperatures and is productive of food organisms.

The old dam at the pond outlet is an obstruction to fish migration at most water levels, but has little effect on the pickerel fishery.

Hot Pond should be opened to ice fishing for pickerel.
