

## SILVER (MATTAKEUNK) LAKE

Lee Twp., Penobscot Co.

U.S.G.S. Winn, Maine

### Fishes

White perch

Yellow perch

Chain pickerel

Minnows

Sunfish

### Physical Characteristics

Area - 570 acres

Maximum Depth - 29 feet

Temperatures

Surface - 70° F.

27 feet - 69° F.

### Suggested Management

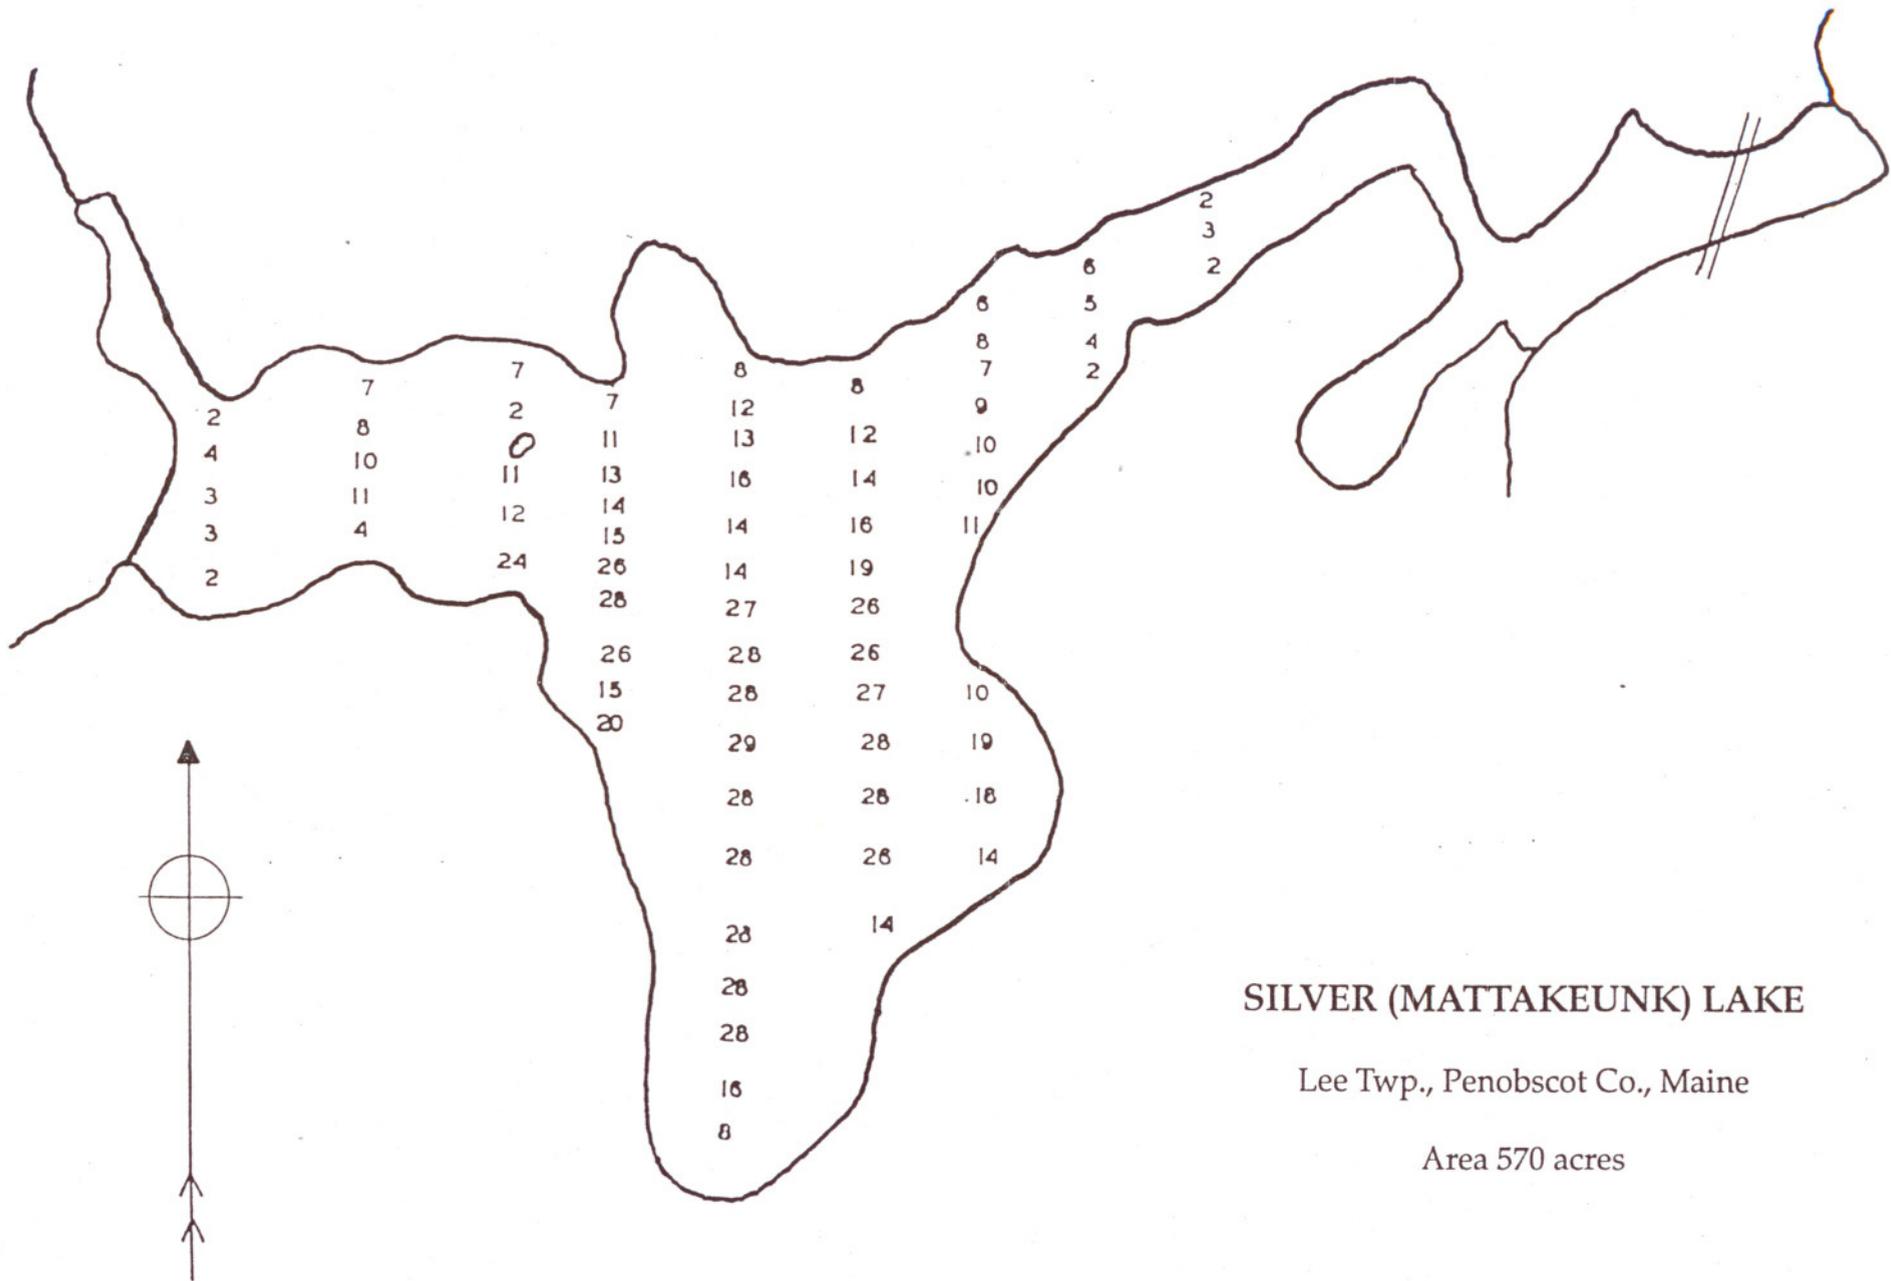

The warm water temperatures and general shallowness of Mattakeunk Lake indicate that management should be for the warm-water game species.

Excessive competition for food and space by perch and pickerel in this type of habitat precludes and possibility of establishing and maintaining large populations of any cold-water game species.

No stocking is recommended

Surveyed - August, 1950
