GOOD FISHING DEPENDS ON CLEAN WATER

Many of our rivers, lakes, and coastal areas are experiencing algae blooms that cover our favorite fishing spots with green slime and cause fish kills and "dead zones" where no aquatic life can survive. The cause is usually nitrogen and phosphorus pollution that comes from farm and lawn fertilizers, septic systems, animal waste, and sewage treatment plants. Here's what you can do to keep the water clean:

- Take care not to over fertilize and closely follow package instructions
- Pick up pet waste and properly manage waste from livestock
- Use green practices such as rain barrels, rain gardens, and permeable pavements
- Maintain septic systems
- Encourage your community to invest in its wastewater infrastructure

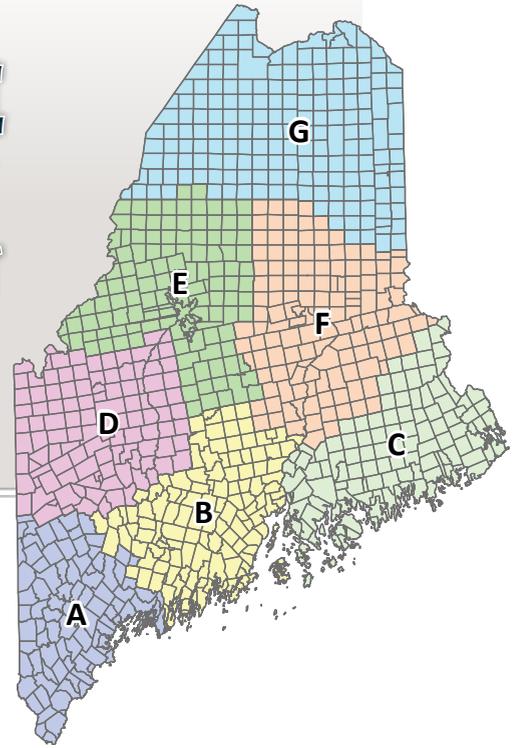

Supporting water quality protection supports great fishing! Learn more at:

PROGRESSIVE[®]

Thank you for hooking into Maine as your fishing destination.

Our cool, clean waters provide healthy habitat for world class fishing and our experienced Maine Guides and others in our natural resources hospitality industry will ensure your experience is an unforgettable one.

The Maine Department of Inland Fisheries & Wildlife is as passionate about fishing as you are and works tirelessly toward smart and sustainable management of our State's storied fisheries and access to them. We ask you to please follow the rules here in this law book to help preserve their hard work and our fisheries for yours and future generations to enjoy.

Now that you've discovered what has drawn anglers to Maine's pristine waters for centuries, we hope you'll return again soon. And, do spread the word (even if you don't want to give up your own secret spot) about the quality and quantity of our fishing, the natural beauty of our great state and why Maine is the perfect place to invest in – for a vacation or a lifetime.

Go fish in Maine. We're happy to have you here.

Paul R. LePage
Governor

Welcome to one of the finest fishing experiences...

...you're ever likely to have! From Sebago Lake to Grand Lake Stream – from Rangeley to the Allagash – welcome to the vast State of Maine and all of its angling resources.

With more than 6,000 lakes and ponds and 32,000 miles of rivers and streams, Maine attracts anglers from all over the world to fish for some of the finest species found anywhere.

Maine is home to more than 90% of the wild brook trout found in lakes and ponds in the United States. The wild brook trout of Maine are an unparalleled resource for future generations.

But brookies aren't the only species – we've got exceptional landlocked salmon, brown and rainbow trout, and the explosive smallmouth bass as well!

While these will make for a memorable adventure, don't forget that seeing a child or young person catch his or her first trout or bass or even a sunfish will make memories that will last a lifetime.

On behalf of the Department of Inland Fisheries and Wildlife let me thank you for purchasing your license which helps the Department manage and maintain the fishing experience in all corners of the state.

So, enjoy fishing in the State of Maine and good luck with making those memories. Take a child fishing – and tight lines!

Chandler E. Woodcock
Commissioner

HOW TO USE THIS BOOK

1. Determine the town and county of the water body you wish to fish.
2. Consult the maps on page 14 to determine the area of the state you are fishing in and the corresponding season, date, and regulations.
3. Go to page 8 to read through the general law provisions.
4. Go to the list of water bodies by county beginning on page 16. If the body of water you wish to fish is on that list, read the special regulations that are in addition to or in place of general law for that body of water. If the body of water is not listed, follow the general law provisions.

This book is broken down into four major sections:

1. Introduction
2. General and Specific Regulations
3. Assorted Regulations
4. Educational Information

Portions of Maine Statute, Title 12 have been summarized for this publication. For more specific language contained in Title 12, please visit our website at mefishwildlife.com.

Each revision of this publication is filed with the Secretary of State and, as a result, the rules herein have the force of law as printed.

NEW REGULATIONS IN THIS BOOK

The following are some of the more significant changes to the 2014 Maine Fishing Lawbook.

1. This lawbook contains fishing regulations for the period beginning January 1, 2014 through December 31, 2014.
2. The General Law for lakes and ponds in the Southern and Eastern Counties (pages 16-26) now permits year-round fishing with no special tackle or harvest restrictions. This change was applied to lakes and ponds where the Department does not have significant management goals for cold water fisheries. Waters in these counties with special season, gear, or harvest restrictions will continue to be indicated under the appropriate county.
3. Waters formerly restricted to use by children under age 16 (S-9) are now open to all complimentary license holders.
4. The "No Live Fish as Bait" (S-4) special rule has been applied to several newly surveyed wild brook trout ponds to minimize the threat of new species introductions.
5. Special slot limits were applied to several togue lakes to reduce their impacts to smelt populations and to improve growth rates on both togue and landlocked salmon.
6. The artificial lures only restriction on smallmouth and largemouth bass fishing during the April 1 - June 30 period was eliminated.
7. A permit is no longer required to trap baitfish from closed waters for personal use. However, several waters where baitfish trapping could threaten sensitive brook trout were closed to this activity. These new closures are indicated in the special rules listings of this lawbook.

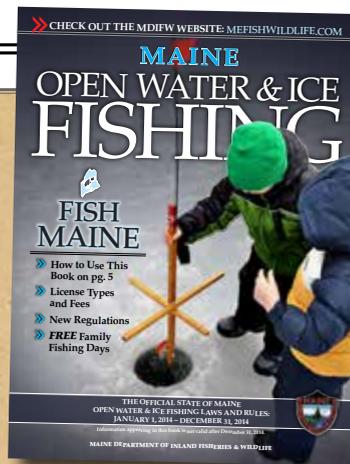

FREE FAMILY FISHING DAYS

Will take place on February 15-16, 2014 and May 31-June 1, 2014. On these days, any person (except those whose license has been suspended or revoked) may fish without a license.

All other laws and regulations apply on these days.

Maine Department of Inland Fisheries & Wildlife stocks over 1 million fish annually. Information available online includes:

- Current Year Stocking Report – Updated Daily
- Historic Annual Stocking Reports, including Broodstock Reports
- Recent Stocking Program Changes – New and Discontinued Programs

About this Guide

This high-quality regulation guide is offered to you by the Maine Department of Inland Fisheries and Wildlife through its unique partnership with J.F. Griffin Publishing, LLC.

J.F. Griffin is an award winning publishing house that specializes in producing state fish & wildlife regulation books. J.F. Griffin supports the MDIF&W's staff in the design, layout and editing of the guides. They also manage the marketing and sales of advertising to appropriate businesses within the book.

The revenue generated through ad sales significantly lowers production costs and generates savings. These savings translate into additional funds for other important fisheries and habitat programs.

If you have any feedback or are interested in advertising, please contact us at 413.884.1001 or online at www.JFGriffin.com

(obtained from clerk who issued original)		Duplicate	\$2
Superpack	\$200	(obtained from agent who issued original)	

BECOME AN OUTDOOR PARTNER

Join the Outdoor Partner Program and Receive Great Benefits!

The Outdoor Partner landowner relations program works to ensure access for outdoor recreation. Members agree to act respectfully and responsibly while enjoying the outdoors, and in return, receive discounts and deals throughout the state. The \$15.00 cost supports the Outdoor Partners landowner relations program. For more info, please visit www.mefishwildlife.com.

*** 1-day fishing license may be exchanged by a Maine resident for a season fishing or combination hunting and fishing license upon payment of the difference between that fee and the fee for the annual license, plus the agent's fee.

**** Maine resident permanently stationed outside the state of Maine.

***** Nonresident 15-day fishing license may be exchanged for a nonresident season fishing license upon payment of \$17 plus the agent's fee.

LIFETIME LICENSES

Your investment in a lifetime license for yourself or as a gift, will allow the bearer to fish, trap, and/or hunt for their lifetime, regardless of where they will live in the future. The revenues generated by the sale of these licenses will be deposited in a special trust fund that will provide long-term financial support for Maine's fish and wildlife.

* hunting, fishing, archery

For more information about the Lifetime License Program, please call (207) 287-8000.

All residents and nonresidents who operate any motorized watercraft or aircraft equipped with pontoons on inland waters must display a Lake & River Protection Sticker in addition to a current boat registration sticker.

LICENSE REQUIREMENTS

No resident of this state, 16 years of age or older, or nonresident, 12 years of age or older, may fish in inland waters or transport fish taken from inland waters without first obtaining a valid Maine fishing license. Maine residents* may obtain fishing license from any resident license agent. Nonresidents** may obtain fishing licenses in person or by mail from the IF&W Department Office in Augusta or from any of the numerous nonresident license agents throughout the state. Residents and nonresidents are also able to purchase licenses on our website: mefishwildlife.com

A person is required to keep his/her fishing license with him/her at all times while fishing or transporting fish and must exhibit their license for inspection by any warden, department employee, guide or landowner upon request.

Possession of fishing tackle in the fields or forest or on the waters or ice of this State without a fishing license is prima facie evidence of fishing in violation of the law.

The commissioner may allow a licensee who has received a complimentary fishing license to have a person accompany and assist that licensee in fishing. The person accompanying and assisting the holder of a complimentary fishing license may do so without obtaining a separate fishing license. This subsection does not authorize the person accompanying and

assisting the licensee to assist that licensee with more than one fishing rod and reel. The person accompanying and assisting the licensee must remain within the immediate proximity of the licensee while that licensee is fishing.

FREE (COMPLIMENTARY) FISHING LICENSE PROVISIONS:

A free fishing license will be issued, upon application, to the following:

1. Any Maine resident* who is blind;
2. Any Maine Native American who is a member of the Passamaquoddy, Penobscot, Maliseet, or Micmac Tribe (must obtain licenses from their respective tribal headquarters);
3. Any Maine, NH, or VT resident who is a war veteran and has a service-connected disability of 50%;
4. Any Maine resident (or nonresident, if reciprocal privileges exist in the home state of the nonresident) who is suffering from the loss, or loss of use, of both lower extremities;
5. Any person with a developmental disability (as defined in Title 5, §19503);
6. Any person with a head injury (as defined in Title 22, §3086).

7. Any resident 16 or 17 years old who is in the custody of DHHS, who holds a valid license, and is in DHHS custody.

(These free licenses may be obtained at the Department Office in Augusta.)

Please note: All waters which have the S-9 restriction (previously known as "youth fishing only waters", are now open for persons under 16 years of age or for persons holding a complimentary fishing license. All categories listed above are eligible in S-9 waters.

*Resident means a citizen of the United States who is domiciled in this State or an alien who has been so domiciled for one year. You will not be considered a resident unless:

- if registered to vote, registered in Maine;
- if licensed to drive a motor vehicle, applied for a Maine motor vehicle license;
- if owning a motor vehicle(s) located within the State, registered each vehicle in Maine;
- complied with the State income tax laws; and
- if a full-time student at a Maine college or university, resides in Maine AND satisfies above requirements.

**Nonresident means a person who does not fall within the definition of resident.

GENERAL LAW & LIMIT INFORMATION

GENERAL LAW

General Law applies to all water bodies unless there are other more specific regulations listed. The General Law Provisions are stated on page 8.

GENERAL LAW SEASONS

For Southern and Eastern Counties, see pages 14 and 16.

For Northern and Western Counties, see pages 14 and 30.

GENERAL LAW TERMINAL GEAR

The use of all legal forms of bait, artificial lures, and artificial flies is permitted.

The daily bag, possession and minimum length limits on this page apply to waters open to fishing that DO NOT have special rules stating otherwise. Special Rules (S-Codes) can be found on page 62.

LANDLOCKED SALMON, TROUT, TOGUE (LAKE TROUT) DAILY BAG & POSSESSION LIMITS

The term "trout" when used alone includes brook trout, brown trout, rainbow trout, splake and Arctic char (Sunapee trout and blueback trout)

The term "brook trout" also includes splake and Arctic char (Sunapee Trout and Blueback Trout).

DAILY BAG & POSSESSION LIMITS	MINIMUM LENGTH LIMIT	
	LAKES & PONDS	RIVERS, BROOKS & STREAMS
5 Brook Trout ^{A,B} (includes Splake and Arctic char)	6 inches	6 inches
2 Landlocked Salmon ^A	14 inches ^C	14 inches ^C
2 Togue (Lake Trout) ^A	18 inches	18 inches
2 Brown Trout ^A	14 inches ^C	6 inches ^C
2 Rainbow Trout ^A	12 inches	6 inches

A. **Important...**From August 16 – September 30, fishing on rivers, brooks, and streams statewide is restricted to the use of artificial lures only and a total daily bag limit of landlocked salmon, trout and togue: 1 fish.

B. **Important...**On lakes and ponds in Androscoggin, Cumberland, Franklin, Hancock, Kennebec, Knox, Lincoln, Oxford, Penobscot, Sagadahoc, Waldo, Washington and York counties the daily bag limit on brook trout is 2 fish.

C. In Hancock and Washington counties the maximum length limit on landlocked salmon and brown trout is 25 inches. Several lakes in each county are exempt from this rule. Please refer to page 17 for Hancock County information and page 24 for Washington County information.

BASS (LARGEMOUTH AND SMALLMOUTH)

DATE	DAILY BAG & POSSESSION LIMITS	MINIMUM LENGTH LIMIT
April 1 – June 30	1 fish	10 inches
July 1 – September 30	3 fish	10 inches, only 1 exceeding 14 inches
October 1 – March 31	1 fish	10 inches

OTHER SPECIES

SPECIES	DAILY BAG & POSSESSION LIMITS	MINIMUM LENGTH LIMIT
Pickereel	10 fish	None
Whitefish	3 fish	None
Smelts	2 quarts alive	None (see page 11 – laws & definitions)
Northern Pike	Unlimited	None
Muskellunge	Unlimited	None
American eel	50 fish	6 inches
Shad	2 fish	None
Striped Bass	1 fish	Between 20 and 26 inches in total length, or 40 inches or greater in total length.
Atlantic Salmon	Federally Endangered Species - No Fishing Permitted, please refer to page 48 for more information	
Alewife	25 fish (see page 9)	None
Species not listed above	Unlimited	None

Advance Baiting:

It is unlawful to deposit any meat, bones, dead fish or other food material in inland waters for the purpose of luring fish. However, it is lawful to place food particles in a baitfish trap for the purpose of luring baitfish. (12657)

Alewives (migratory sea-run):

A licensed fisherman may take 25 alewives daily from inland waters by use of a dip net or single hook and line for consumption by himself or members of his family, except that alewives may not be taken from waters where a municipality or individual has been granted exclusive rights under laws regulating marine resources. (12506)

Artificial Lure:

Any fishing lure constructed by humans as an imitation or substitute for natural bait or fish forage and includes, but is not limited to artificial flies, spinners, spoons, poppers, plugs, jigs and plastic, rubber or other artificial imitations of natural bait. An artificial lures only rule prohibits the use of any live, dead or chemically preserved natural or organic bait or food.

Bag Limit (All Fish):

Any fish, except baitfish and smelts, legally taken from inland waters shall be immediately released alive into the water from which it was taken, or killed at once. Any fish killed becomes part of the daily bag limit. (12611)

Bait Containers:

A person selling bait may not provide or sell the bait in containers composed in whole or in part of polystyrene foam plastic. This does not apply to baitfish. (12553-2)

Bass:

The term "bass", when used alone, includes largemouth and smallmouth.

Brook Trout:

The term "brook trout" includes brook trout, splake, and Arctic char (Sunapee trout and blueback trout).

Closed Waters:

All inland waters, including those in Indian Territory (See page 55), are closed to ice fishing except those opened by rule.

County Lines:

Whenever county lines divide a body of water, the more liberal county rule applies to the entire body of water.

Cusk Lines:

All lines set through the ice at night (sunset to sunrise) for cusk must be checked at least once every hour by the person who set them.

Dip Net:

A device consisting of a rigid frame filled with netting, firmly attached to a rigid handle and manually operated by a single person.

Failure to Label Fish:

It is unlawful to keep bass, landlocked salmon, togue (lake trout) or trout at any sporting camp, hotel, public lodging place or any place other than a person's residence without attaching the name and address of the person who caught the fish. (12608)

Fishways Associated with Dams:

The area within 150 feet of any fishway is closed to fishing except:

- At the following places, the fishway and the area within 75 feet of any part of the fishway are closed to fishing at all times:
 1. Grand Falls Powerhouse Dam on St. Croix River in Baileyville.
 2. Woodland Dam on the St. Croix River in Baileyville.
- At the following places, the area within 75 feet of the mouth of the fishway is closed to fishing at all times:
 1. East Grand Lake Dam in Forest City Twp. (T9R4 NBPP).
 2. Spednic Lake Dam in Vanceboro.

New electronic lure may catch too many fish; one state bans it.

A bass every seven minutes.

by Mike Butler

NEWARK, DE— A new fishing technology that set a record for catching bass in Mexico is now showing its stuff in the U.S. It has out-fished shrimp bait in Washington State and beat top-selling U.S. lures three to one in Florida. The new technology is so effective one state, Wyoming, has banned its use.

The breakthrough is a tiny, battery-powered electrical system that flashes a blood-red light down a lure's tail when it's moved in water. Fish think it's an injured prey and strike. Some fishing authorities, like those in Wyoming, think that gives fishermen too much of an advantage.

They may be right. Three fishermen using a flashing lure in Mexico caught 650 large-mouth bass in just 25 hours. That's a bass every seven minutes for each person, and a record for the lake they were fishing. They said the bass struck with such ferocity they hardly lost a strike.

In Florida two professionals

fished for four hours from the same boat. One used a flashing-red lure; the other used some top-selling U. S. lures. The new, "bleeding" lure caught three times as many fish.

Before reporting this, I asked a veteran fisherman in my office for his opinion. Monday morning he charged into my office yelling "I caught six monster fish in an hour with this thing! Where did you get it?"

Then I phoned an ichthyologist (fish expert).

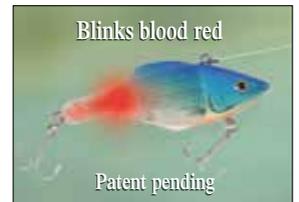

"Predators - lions, sharks," he said, "will always go for the most vulnerable prey. Fish are predators, so if a fish sees a smaller fish bleeding, it knows it's weakened and will strike."

"If a lure could appear to be a live, bleeding fish, a few fishermen could probably empty a lake with it."

I told him three almost did.

Fishes top, middle and deep

There is a U.S. company that offers a kit of three blinking lures (one each for shallow, middle and deep water) called the Bite Light® Each lure is a

Appears as live, bleeding prey. Genetically triggers strikes.

different color. They work in fresh or salt water, contain rattle attractants inside and last 300 hours in the water.

One kit of three Bite Lights® costs \$29.95, two or more kits cost \$25.00 each. Each kit has the same three models, but in different colors: S/h is only \$7.00 no matter how many kits you buy.

To order, go to www.FishingTechToday.com or call 1-800-873-4415 anytime or day and ask for the Bite Light® lure (Item #kbl). Or send your name, address and a check to Scientific Edge LLC (Dept. LL-118), 40 E. Main Street, Newark, DE 19711.

The company gives you money back, if you don't catch more fish and return your purchase within 30-days.

BL-14H © Scientific Edge LLC 2013 Dept. LL-118

- At the so-called ice control dam on the Narraguagus River in the Town of Cherryfield, the area within 100 feet of the dam is closed to fishing at all times.
- At the East Outlet Dam on the outlet of Moosehead Lake in Sapling Twp. (T1R7 BKP WKR) in Somerset County and in Big Moose Twp. (T2R6 BKP EKR) in Piscataquis County, the fishway and the area within 50 feet of any part of the fishway is closed to fishing at all times.
- At the following places, fishing is prohibited in or from the fishway; there are no distance restrictions when fishing near the fishway: Sheepscot Lake Dam in the Town of Palermo in Waldo County, Chain of Ponds Dam in Chain of Ponds Township in Franklin County, Long Pond Dam in Seven Ponds Township in Franklin County, Beaver Pond Dam in Seven Ponds Township in Franklin County, and Little Island Pond Dam in Seven Ponds Township in Franklin County.

(Note: These provisions do not restrict the taking of alewives and smelts in accordance with laws regulating marine resources). (12457)

Fly (Artificial Fly):

A single-pointed hook dressed with feathers, hair, thread, tinsel, or any similar material to which no additional hook, spinner, spoon or similar device is added.

Fly Fishing:

Casting upon water and retrieving in a manner in which the weight of the fly line propels the fly. No more than 3 unbaited artificial flies individually attached to a line may be used. (NOTE: It is unlawful to troll a fly in waters restricted to fly fishing only).

General Law

General Law is defined as laws and rules that govern fishing in all water bodies unless there are other more specific regulations listed. More specifically, general law covers any legal terminal gear, daily bag and possession limits, season dates and species. The General Law Provisions are located on page 8.

Hook:

A single fish hook constructed with 1, 2 or 3 points.

Ice Fishing:

Taking freshwater fish during the ice fishing season through man-made openings in the ice by the use of ice fishing implements. It is unlawful to open water fish in inland waters while positioned on ice.

Ice Fishing Implement:

Any lawful fishing implement used to take fish through the ice including a trap (tip-up), jig stick, rod in hand or handline, except that a person engaged in taking smelts and baitfish may do so in accordance with the laws and rules governing these activities.

Ice Fishing Shack:

A person who owns any shack or temporary structure used for ice fishing:

- May not leave or allow the shack or structure to remain on the ice of any inland waters after April 1st; and
- Shall have painted on the outside of the shack or structure in 2-inch letters, the owner's name and address when the shack or structure is on the ice of any inland waters.
- A person may not leave a structure on another person's land without permission of the landowner.

Ice Fishing Trap (Tip-Up):

An ice fishing implement for storing line, designed to be set through the ice and to indicate when something has disturbed the attached bait.

Illegal Implements, Use of:

- A. Except as otherwise provided, it is unlawful to possess any grapnel, trawl, weir, seine, gill net, trap, set line or drop net on or adjacent to any of the inland waters of this State.
- B. Except as otherwise provided, it is unlawful to fish with a grapnel, spear, spear gun, trawl, weir, gaff, seine, gill net, trap, or set lines. (12656)

Illegal Fishing:

Except as otherwise provided, it is unlawful to fish other than with a single baited hook and line, artificial flies or artificial lures and spinners.

Exception: This does not apply to hook and line smelt fishing. All other rules and regulations governing the taking of smelt apply. Use of a gaff is unlawful. (12654)

Illegal Use of Antifreeze:

Adding substances containing ethylene glycol or other antifreeze agents to waters of this State is illegal. (Title 38, §413)

Importation of Fish:

It is unlawful to import any live freshwater fish or eggs into this State without written permission from the Commissioner. (12556)

Lead Sinkers:

It is unlawful to sell, offer for sale, or use a lead sinker that weighs 1 ounce or less and measures 2.5 inches or less. This does not include artificial lures, weighted line or lines, or jig heads. (12663-B)

Line Restrictions:

Unless otherwise provided by rule, the number of lines an angler may fish at any one time is limited to two lines while open water fishing and five lines while ice fishing. At no time may an angler fish with more than five lines.

Litter:

It is unlawful to dispose of litter (including abandoned ice fishing shacks) anywhere in this State, except in areas or receptacles designed for that purpose. Convicted violators face fines up

to \$200 for the first offense and up to \$500 for subsequent offenses.

Marking Fish:

It is unlawful to tag, fin clip, or otherwise mark any fish to be released alive into the inland waters of the State without the written consent of the Commissioner.

Minimum Legal Length:

The total length of a fish measured from the tip of the snout to the tip of the tail, with the lobes of the tail squeezed together.

Night Fishing:

Except as otherwise provided by rule, all waters open to fishing are open to fishing 24 hours a day. All lines must be under the immediate supervision of the person who set them.

Exception: All lines set through the ice at night for cusk must be checked at least once every hour by the person who set them.

Notice of Submerged Vehicle:

The owner of any motor vehicle, all terrain vehicle or snowmobile that becomes submerged, or partially submerged, in the waters of the State shall immediately notify the Commissioner of Inland Fisheries and Wildlife of the event and the location of the vehicle. The owner is legally liable for removal and to pay any damages resulting from the submersion or removal. Motor vehicles shall be removed within 30 days (same day if public water supply). Snowmobiles and ATVs shall be removed within 24 hours.

Open Water Fishing:

Taking freshwater fish during the open water fishing season by means of hook and line in hand, or attached to a rod, or by casting or trolling artificial flies, lures, or baited hooks, provided that the person angling does not take fish through a man made hole in the ice, from the ice or from any object supported by the ice.

Possessing Gift Fish:

A person who does not possess a valid fishing license issued under chapter 923 may not possess a fish or any part of a fish given to that person except a person may possess in that person's domicile a gift fish that was lawfully caught and is plainly labeled with the name of the person who gave the fish and the year, month and day the fish was caught by that person. This section does not apply to baitfish.

Possession Limit (All Fish):

A person shall not possess at any time more fish than may lawfully be taken in one day.

Railroad Track Restrictions:

A person may not, without right, stand or walk on a railroad track or railroad bridge or pass over a railroad bridge except by railroad conveyance. For penalties see Title 23, Chapter 611, § 7007.

Removal of Bag Limits on Bass:

In waters where the bag limit on bass has been removed by special rule, the season on bass and

the method of fishing for them is the same as for trout and salmon.

Removal of Heads and Tails:

It is unlawful to alter the length of landlocked salmon, trout, togue, lake whitefish, and bass unless the fish are being prepared for immediate cooking. It is unlawful to possess or transport fish dressed in such a manner that the species of fish cannot be identified; unless the fish are being prepared for immediate cooking (smoking does not constitute cooking).

Sale of Certain Fish Prohibited:

It is unlawful to buy or sell, directly or indirectly, trout, togue, landlocked salmon, bass, white perch, or pickerel (except fish which have been lawfully produced by commercial producers and skins of fish which have been preserved by taxidermy). (12609-A)

Salmon:

The term "Salmon", when used alone, means the same as landlocked salmon.

Salmon Eggs As Bait:

Commercially prepared eggs from species that do not naturally occur in this State may be used for bait. (12553)

Season Dates:

All dates are inclusive.

Set Line:

A line extending into the water and rigged to catch fish that has one end secured to the shore, or to a fixed or buoyant object, that is not personally attended.

Exception: lines set through the ice for cusk at night.

Single-Baited Hook:

A single-baited apparatus designed to catch only one fish at a time.

Smelting:

A person holding a valid Maine fishing license may take smelts for recreational purposes only from the inland waters or portions of inland waters that are open to fishing and naturally free of ice with a dip net in the usual and ordinary way from noon to 2:00 a.m. in accordance with bag limits established by rule. Bag limits established by rule under this paragraph are for a 24-hour period, beginning at noon on a given day and ending at 11:59 a.m. the following day. A person may not take smelts with a dip net unless that dip net meets the requirements listed on page 9. A dip net when used to take smelts in a tributary or within 100 feet of the mouth of a tributary must contain a rigid circular frame that is not more than 24 inches in diameter as measured at any point on the hoop and manually operated by a single person.

Note: An unlimited number of baited hooks may be used on your line while fishing for smelts.

Snagging:

To fish by manipulating a hook or hooks in such a manner as to pierce or snag the fish in a part of the body other than the mouth. It is unlawful to fish for any fish, except suckers, by snagging. (12651)

Special Bag Limit:

Whenever any waters have a special bag limit, no person shall possess more than one day's bag limit taken from those waters.

Species Identification:

It is unlawful to possess or transport fish dressed in such a manner that the species of the fish cannot be identified unless the fish are being prepared for immediate cooking. (Smoking does not constitute cooking).

Suckers:

Persons licensed, or otherwise entitled to fish, may take suckers for their own use between April 1st and June 30th from all rivers, brooks, and streams open to fishing by use of a hand spear, bow and arrow or by snagging. (Note: If suckers are taken by bow and arrow, the arrow must have a barbed or pronged point and must be attached to the bow with a line). (12506)

Supervision of Lines:

All lines must be under the immediate supervision of the person who set them.

Exception: All lines set through the ice at night for cusk must be checked at least once every hour by the person who set them.

Ten-Acre Ponds:

All ponds of 10 acres or less formed on brooks, streams, or rivers are governed by the same fishing rule(s), *unless specifically listed for the waterbody*, that apply to the brook, stream, or river where the pond is situated, whether the pond is natural or artificial. (This does not apply to private ponds.)

Terminal Gear:

Tackle at the end of a line used to catch fish, including baited and unbaited hooks, artificial lures and baits, and artificial flies.

Thoroughfares:

Waterways connecting lakes and/or ponds. The general fishing laws governing lakes and ponds also apply to thoroughfares (includes seasons, bag limits, length limits, etc.)

To Fish:

To take, catch, kill, molest or destroy any fish or to attempt to take, catch, kill or molest or destroy any fish.

Togue:

The term "Togue" means the same as Lake Trout.

Tributary:

A brook, stream, or river flowing directly or indirectly into a lake, pond, or another brook, stream, or river. A lake or great pond shall not be construed to mean tributary. The tributary to a great pond shall not be considered a tributary to the outlet of that great pond.

Troll:

To fish by trailing a line rigged to catch fish behind or in front of a watercraft being propelled by mechanical, wind or manual power. (Tandem flies are allowed when trolling.)

Trout:

The term "trout" when used alone, includes brook trout, brown trout, rainbow trout, Arctic char (Sunapee trout and blueback trout), and splake. The term "brook trout" includes brook trout, splake and Arctic char (Sunapee trout and blueback trout).

Use of Explosive, Poisonous or Stupefying Substance:

It is unlawful to take or destroy any fish by use of an explosive, poisonous or stupefying substance. (12653)

Use of Fish (live or dead) as Bait:

See laws on page 50 concerning the use of baitfish (live or dead).

Violation of Limits:

It is unlawful to fish for or possess fish in violation of the number, amount, or size limits of any rule adopted by the Commissioner. (12602)

Conserving Maine's Wild Brook Trout

Photographs by Murray Carpenter

Maine is the nation's wild brook trout (*Salvelinus fontinalis*) resource leader. A national status assessment of the species' historic range, completed in 2005, found the greatest percentage of intact, viable wild brook trout populations occur in Maine. Maine is a leader in wild brook trout conservation and a founding partner of the Eastern Brook Trout Joint Venture: National Fish Habitat Partnership (www.easternbrooktrout.org). Our wild brookies persist statewide and can be found inhabiting all varieties of aquatic habitats – lakes, ponds, rivers, streams, and coastal estuaries. This provides anglers with ample year round options to experience a variety of fishing opportunities and angling styles while exploring Maine's diverse geography.

Maine's wild brook trout tend to be concentrated in the interior highlands of the state, an area dominated by vast forests. However, wild brookies are also common in lower elevation areas, the coastal plain, and in relative close proximity to development. All in all, recent survey efforts of all habitat types reveal that wild brook trout occupy about 60% of all habitats available to them within Maine. Because trout can be found in such diverse habitats and conditions, fish size and abundance is also quite variable. As such, IFW biologists vary management strategies across habitats and waters in order to provide a variety of options to anglers while conserving populations for future generations. Some

ponds that support high growth rates are managed to provide anglers an expectation of catching larger than average size trout. Conversely, some waters that tend to produce high abundances of trout are managed to provide anglers an expectation of 'faster fishing' or higher catch rates for smaller trout. Additional information regarding managing Maine's unique and valuable wild brook trout resources can be found here www.maine.gov/ifw/fishing/species/management_plans/brooktrout.pdf.

Regulating Harvest

Some Management Techniques and Their Effects

In North America, fishing regulations were implemented well before the turn of the 20th century. For example, season closures for some marine fisheries were implemented as early as the 1600s and by the time of the American Revolution, numerous statutes were in place regulating fish harvest. Since the 1960s there has been a broad trend toward more restrictive harvest regulations including the reduction in the number of fish that can be harvested and the use of restrictive length limits. Additionally, water and species-specific regulations have become common throughout the United States. Whereas seasonal closures and creel limits were often the only regulations implemented at the turn of the 20th century, slot length limits and length-based creel limits are now used more widely to control harvest.

Fishing regulations are implemented for many reasons. In Maine, fishing regulations are implemented to improve fishing quality or to maintain population viability, to alter community dynamics, or to encourage the control of exotic species from certain waters. In addition, fishing regulations can be applied for public safety concerns, such as consumption advisories due to contaminants (e.g., lead, mercury, PCBs). Regulations may also be implemented for social reasons, such as accommodating the desires of individual user groups. Both social and biological data are used by our Fisheries Division when implementing or altering fishing regulations and policies. Suffice to say, developing, maintaining, and changing fishing regulations is no easy task! With any regulation, careful design and regular monitoring are essential in order to be effective.

If you've fished in Maine then you may recognize that state-wide there are a diversity of fishing regulations that all anglers must follow. Fishing regulations are as diverse as the people of Maine and are based on many factors, including the water body, location, water quality, species composition, and the desires of anglers. Below are some fisheries management techniques that we hope define and explain why certain regulations exist.

General Law: This regulation provides basic protection to stocked and wild fish. General law encourages early harvest where angler pressure is moderate to high which can maximize growth rate potential of individual fish not harvested in the fishery. This regulation can provide good catch rates and harvest opportunities

Low Bag Limits: Lower bag limits are intended to distribute the catch over a longer period of time and among more anglers. Low bag limits usually coincide with restrictive regulations such as high minimum length limits.

Slot Limits: These regulations are bound by the upper and lower length limits with the intent of directing harvest to specific parts of a fish population while protecting others. A slot limit may be used to "thin out" smaller fish to allow remaining fish to grow faster and enable large fish to be caught and released or kept. The protected size slot protects fish and allows them to continue to grow and reach a larger size class. Anglers are important with this regulation! Without harvesting fish of a given size, the regulation does little for management of the resource.

Catch and Release: This regulation is intended to return fish to the water alive, thus giving them the chance to grow larger and be caught again. This regulation may be effective on waters where natural recruitment and population size is very low and growth rates are excellent, or on waters where there is a strict need for conservation (imperiled or endangered species, for instance).

Fly Fishing or Artificial Lures Only: These "terminal tackle" regulations are applied to reduce mortalities in released fish and are often an effective and necessary companion to restrictive bag and length limits.

No Live Fish as Bait: This regulation is typically applied to reduce the risk of establishing unwanted bait populations in landlocked salmon or brook trout waters, while still allowing the use of dead baitfish or artificial lures.

Southern & Eastern Counties

For
**Special
Regulations**
see the back
cover flap

SOUTHERN & EASTERN COUNTIES

Counties include: Androscoggin, Cumberland, Hancock, Kennebec, Knox, Lincoln, Oxford south of the Androscoggin River, Penobscot, Sagadahoc, Waldo, Washington, and York.

Lakes and Ponds:

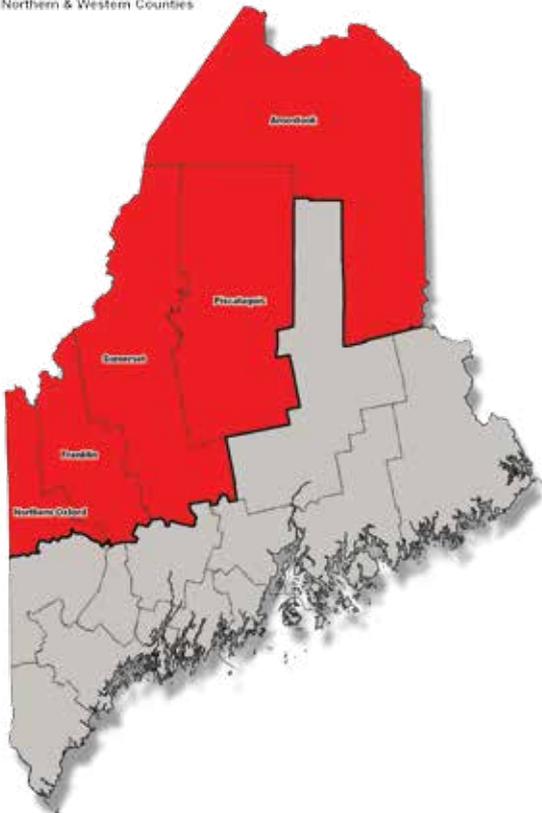

- **January 1 - December 31:** Unless otherwise indicated by special rule, open to ice and open water fishing under general law fishing provisions (see page 8).

Brooks, Streams and Rivers:

- **From April 1 - August 15:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 8).
- **From August 16 - September 30:** Fishing in brooks, streams and rivers is restricted to the use of artificial lures or flies only, and the combined total daily bag limit for trout, landlocked salmon, and togue is 1 fish.
- **From October 1 - March 31:** Unless otherwise indicated under the appropriate county, brooks, streams and rivers are closed to all fishing. Any water open to open water fishing or ice fishing between October 1 - March 31 will be indicated under the appropriate county.

Unless indicated otherwise under the appropriate county, on lakes and ponds in the Southern and Eastern counties the daily bag limit on brook trout is 2 fish.

Northern & Western Counties

NORTHERN & WESTERN COUNTIES

Counties include: Aroostook, Franklin, Oxford north of the Androscoggin River, Piscataquis, and Somerset.

Lakes and Ponds:

- **From April 1 - September 30:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 8).
- **From October 1 - March 31:** Unless otherwise indicated under the appropriate county, closed to open water fishing. Lakes and ponds with extended open water seasons will be indicated under the appropriate county.
- **All lakes and ponds are closed to ice fishing,** unless indicated with an **A** or **B** code, which defines the winter fishing season.

Brooks, Streams and Rivers:

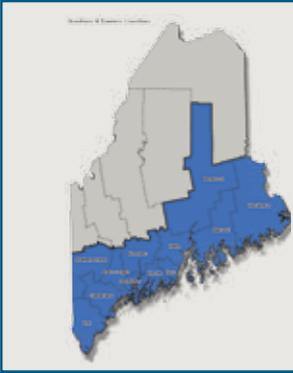

- **From April 1 - August 15:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 8).
- **From August 16 - September 30:** Fishing in brooks, streams and rivers is restricted to the use of artificial lures or flies only, and the combined total daily bag limit for trout, landlocked salmon, and togue is 1 fish.
- **From October 1 - March 31:** Unless otherwise indicated under the appropriate county, brooks, streams and rivers are closed to all fishing. Any water open to open water fishing or ice fishing between October 1 - March 31 will be indicated under the appropriate county.

Waters open to ice fishing are listed with an A or a B code which defines the winter fishing season. All other waters are closed to ice fishing.

FISHING OPPORTUNITIES FOR YOUTH AND COMPLIMENTARY LICENSE HOLDERS

Certain waters are governed by special regulations that give youth and complimentary license holders exclusive or special access to the fishery. We have listed these waters below by county. To see what special regulations apply, go to the county listing and look for the body of water. They are listed alphabetically.

ANDROSCOGGIN COUNTY	Pennesseewasee (Norway) Lake Outlet (portion of), Norway
Pettingill Park Pond, Auburn	PENOBSCOT COUNTY
AROOSTOOK COUNTY	Burlington Fire Pond, Burlington
Brown Pond, Houlton	Cold Stream (portion of), Enfield
Hannington Pond, Reed Pt.	Giles Pond, Patten
Mantle Lake, Presque Isle	Jerry Pond, Millinocket
Michaud Pond, Fort Kent	Johnny Mack Brook, Orono
Pearce Brook (portion of), Houlton	Lincoln Kids Pond, Lincoln
Rock Crusher Pond, Island Falls	Little Round Pond, Lincoln
Stewart Pond, Hodgdon	Mattagodus Stream (portion of), Springfield
Stiles Pond, Oakfield	Mill Stream (portion of), Dexter
CUMBERLAND COUNTY	O'Roake Pond, Sherman
Alden's Pond, Gorham	Penobscot County Conservation Pond, Brewer
Coffin Pond, Brunswick	Rocky Brook, Lincoln
Lower Hinckley Pond, South Portland	PISCATAQUIS COUNTY
Stevens Brook (Cemetery Brook) (portion of), New Gloucester	Drummond Pond, Abbott (ice only)
FRANKLIN COUNTY	Dunham Brook (including Kiwanis Park Pond), Dover- Foxcroft
Haley Pond Outlet, Rangeley	SAGADAHOC COUNTY
Mill Pond, on Muddy Brook, Industry	Swan Island (Stephen e. Powell Wildlife Management Area), Richmond
Pinnacle Pond, Kingfield	SOMERSET COUNTY
Toothaker Pond, Phillips (ice only)	Hights Pond, Skowhegan
Wilson Stream (portion of), Wilton	Mill Stream (portion of), Embden
HANCOCK COUNTY	Tibbetts Pond, Concord Twp.
Pickarel Pond, T32 MD	WASHINGTON COUNTY
LINCOLN COUNTY	Foxhole Pond, on head waters of Great Falls Branch Brook, Deblois
Quarry Pond, Waldoboro	Meyers Pond, North, Columbia
OXFORD COUNTY	Meyers Pond, South, Columbia
Abbot Brook, Mexico	Middle River (portion of), Marshfield
Aunt Hannah Brook (portion of), Dixfield	YORK COUNTY
Billy Brook (portion of), Brownfield	Leavitt Brook (portion of), Limerick
	Round Pond, Lyman (ice only)
	Wilcox Pond, Biddeford

SOUTHERN & EASTERN COUNTIES

Counties include: Androscoggin, Cumberland, Hancock, Kennebec, Knox, Lincoln, Oxford south of the Androscoggin River, Penobscot, Sagadahoc, Waldo, Washington, and York.

See general law fishing provisions on page 8, and special rules for Maine's southern and eastern counties on page 14. Some waters may have special rules that differ from general law.

If the county water you wish to fish IS listed below, the letter code will direct you to the rule(s) which are in effect that differ from general law or the special provisions for Maine's southern and eastern counties. The meanings of the letter codes are on page 62.

ANDROSCOGGIN COUNTY

Unless indicated otherwise below, on lakes and ponds in Androscoggin County the daily bag limit on brook trout is 2 fish.

ANDROSCOGGIN RIVER

(See Fish Consumption Advisories on page 54).

Ice Fishing: CI, except that section of river between Livermore Falls Dam and tidewater is open to ice fishing under A. S-19.

Open Water Fishing: Open to open water fishing from the Maine-New Hampshire Border to tidewater from January 1 - December 31.

- From the Maine-New Hampshire border downriver to the bridge crossing in Gilead: Single hook artificial lures only. S-7.

- From the bridge crossing in Gilead to the Route 232 Bridge, Rumford Point:

From April 1 - September 30: S-6; daily bag limit on trout: 1 fish; minimum length limit on salmon, rainbow trout, and brown trout: 12 inches. All trout between 16 and 20 inches must be released alive at once. From October 1 - March 31: S-6; all trout and salmon must be released alive at once.

- From the Route 232 Bridge, Rumford Point to Livermore Falls Dam:

From April 1 - September 30: S-19; minimum length limit on salmon, rainbow trout, and brown trout: 12 inches. From October 1 - March 31: S-6; all trout and salmon must be released alive at once.

- From the Livermore Falls Dam to tidewater: S-19, S-33.

ANDROSCOGGIN RIVER, LITTLE

Woodstock, Greenwood, West Paris, Paris, Oxford, Minot, Poland, Auburn, etc. S-19, S-33. From Route 26 Welchville Dam in Oxford to the confluence with Androscoggin River: Open to fishing from April 1 - October 31, S-19. From August 16 - September 30: River/Brook/Stream General Law terminal gear regulations stated for April 1 - August 15 apply.

AUBURN LAKE AND TRIBUTARIES

Auburn. CI. No motor vehicles on ice (ATVs and snowmobiles allowed). S-1, S-26. Lake, tributaries and outlet to barrier dam closed to the spearing of all fish. From October

1 - November 30: Lake only open to open water fishing, artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once. Lake, tributaries, and outlet to barrier dam closed to open water fishing from December 1 - March 31. The Auburn Water District has closed to all water-related activities (including boating and fishing) that portion southerly of a line extending from a marker placed on a point of land on the east shore of the lake approximately 400 feet southerly of the Route 4 boat launch and extending westerly to a marker on a point of land known as Point of Pines on the west shore of the lake. That portion northerly of the above described line is also closed to all water-related activities except that small recreational boats and fishing are allowed.

BARTLETT POND AND TRIBUTARIES AND OUTLET TO BARRIER DAM, Livermore. CI. S-1, S-3, S-4, S-10.

BASIN BROOK, Auburn. From the Basin Pond Dam to Auburn Lake: S-19.

CRYSTAL (BEALS) POND, Turner. S-2, S-3. Motorboats over 10 horsepower prohibited.

HOOPER (LITTLE SABATTUS) POND, Greene. Motorboats prohibited.

LARD POND, Turner. Motorboats over 10 horsepower prohibited.

LITTLE RIVER, Lisbon, Topsham, etc. S-33.

NEZINSCOT RIVER, Turner. From the Central Maine Power Company transmission line crossing approximately 500 yards below the junction with Martin Stream to the Turner Mill Dam: A, S-6, S-19.

- From Turner Mill dam downstream to its confluence with Meadow Brook: Open to open water fishing for all fish from January 1 - December 31, S-6, S-7.

- From its confluence with Meadow Brook downstream to its confluence with the Androscoggin River: Open to open water fishing for all fish from January 1 - December 31, S-19. General Law terminal gear provisions and length limits apply year-round.

PETTINGILL PARK POND, Auburn. Open to fishing May 16 - September 30: S-9. Closed to all fishing October 1 - May 15.

PLEASANT POND, Turner. S-17.

RANGE POND, LOWER, Poland. Motorboats over 10 horsepower

prohibited. From October 1 - December 31: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

RANGE POND, MIDDLE, Poland. S-2, S-3, S-26. From October 1 - December 31: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

RANGE POND (UPPER), Poland. From October 1 - December 31: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

SABATTUS POND, Greene, Wales, Sabattus. S-28.

TAYLOR POND, Auburn. S-3.

THOMPSON LAKE (INCLUDING THE HEATH AND ALL TRIBUTARIES), Poland, Oxford, etc. (See Oxford County).

WORTHLEY POND, Poland. From October 1 - November 30: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

CUMBERLAND COUNTY

Unless indicated otherwise below, on lakes and ponds in Cumberland County the daily bag limit on brook trout is 2 fish.

ADAMS POND, Bridgton. CI. S-13. April 1 - June 20: S-6. From June 21 - September 30: S-4. From October 1 - March 31: S-10.

ALDENS POND, Gorham. CI. S-9.

ANDROSCOGGIN RIVER. (See Androscoggin County).

BARKER POND, Hiram, Sebago. (See Oxford County)

BEAVER POND, Bridgton. Motorboats with internal combustion engines prohibited.

CHAFFIN POND, Windham. CI. S-6, S-13, S-16. From October 1 - March 31: S-6, S-7, S-13.

COFFEE POND AND TRIBUTARIES, Casco. CI. S-2, S-3, S-4, S-13. From October 1 - March 31: S-10.

COFFIN POND, Brunswick. S-9, S-13.

COLD RAIN POND, Naples. From

October 1 - December 31: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

COLLYER BROOK, Gray. S-19.

CRESCENT LAKE, Raymond. From October 1 - December 31: Artificial lures only and all trout, landlocked salmon, and togue caught must be released alive at once.

CROOKED RIVER, Albany to Casco, etc. (Cumberland and Oxford Counties): S-1, S-5, S-22; minimum length limit on landlocked salmon: 26 inches.

NORTHERN & WESTERN COUNTIES

Counties include: Aroostook, Franklin, Oxford north of the Androscoggin River, Piscataquis, and Somerset.

See general law fishing provisions on page 8, and special rules for Maine's northern and western counties on page 14. Some waters may have special rules that differ from general law.

If the county water you wish to fish IS listed below, the letter code will direct you to the rule(s) which are in effect that differ from general law or the special provisions for Maine's northern and western counties. The meanings of the letter codes are on page 62.

AROOSTOOK COUNTY

.....
Waters open to ice fishing are listed with an A or a B code which defines the winter fishing season. All other waters are closed to ice fishing.

ALLAGASH WILDERNESS WATERWAY WATERS. See Piscataquis County, page 40.

ALLAGASH RIVER FROM ALLAGASH FALLS DOWNSTREAM TO THE CONFLUENCE WITH THE ST. JOHN RIVER, T15R10&11 WELS, Allagash. S-13. From October 1 – November 30: S-6, S-13. Open to taking bass and muskellunge only.

November 30: S-7.

Maine Landlocked Salmon

The landlocked salmon is one of Maine's most highly prized and sought after sportfish. Landlocked salmon are a freshwater form of the sea-run Atlantic salmon and prior to 1868, populations occurred in only four river basins in Maine: the St. Croix, including West Grand Lake in Washington County; the Union, including Green Lake in Hancock County; the Penobscot, including Sebec Lake in Piscataquis County; and the Presumpscot, including Sebago Lake in Cumberland County. Salmon have been widely introduced throughout the state since the early 1900's, and Maine now supports one of the largest sport fisheries for this species in the world. Salmon currently provide the

primary fishery in 200 lakes. Populations in 138 lakes are maintained by stocking, while natural reproduction sustains populations in 62 lakes. Salmon also provide good fisheries in 50 rivers and streams totaling about 320 miles.

Salmon fishing in lakes is most productive from ice-out to early summer, and again in September. During these times most anglers troll near the surface, around rocky points or shoals, and near the mouths of tributaries or thoroughfares. Sewn smelts or artificial lures that imitate smelts are effective baits. Fly-casting can be productive in lakes during insect hatches, and is the preferred method for catching salmon in rivers.

Ice fishing for salmon is popular in Maine. Winter anglers fish a few feet under the surface with various models of "tip-ups" or by "jigging" natural baits or artificial lures.

To find fishing opportunities for landlocked salmon in Maine visit the Maine Fishing Guide at: www.maine.gov/ifw/fishing/fishingGuide.html

To learn more about landlocked salmon life history and management visit: IF&W Online Store

To read Maine's Landlocked Salmon Management Plan visit: www.maine.gov/ifw/fishing/species/management_plans/landlockedsalmon.pdf

HOW DOES YOUR FISHING LICENSE SUPPORT MAINE'S FISHERIES?

Dingle-Johnson Sport Fish Restoration Program

The Federal Aid in Sport Fish Restoration Program is a cooperative effort involving federal and state government agencies. This program was first established in 1950 by the Dingell-Johnson Act, and then expanded considerably in 1984 through the Wallop-Breaux Amendment. The program established a "User Pay/User Benefit" philosophy for funding States' restoration and conservation efforts directed towards America's fisheries resources. Revenues are collected from excise taxes on fishing tackle, motorboat fuel sales, and import duties on tackle and boats. These monies are then allocated to state fishery agencies for sport fisheries and boating access projects.

These funds support a wide array of projects in Maine including: fisheries population assessments, lake and stream habitat assessments and restoration, acquisition and maintenance of water access sites, aquatic education, and the development of long-range species management plans.

Weed Razer

The most efficient and effective tool made for removing submerged weeds

Clears your lake or pond weeds in minutes!

Using the Weed Razer is simple:

1. Give it a toss
2. Let it sink
3. Pull it in
4. Repeat

"Just a short note to tell you that bar none, the Lake WeedRazer works absolutely phenomenal. I have used every conceivable gimmick on the market for cutting weeds and this one works the best as advertised." – J. Murphy

Illegal Fish Introductions

The **Largest Threat** to Maine's Fish Populations and Fishing Heritage

In recent years Maine's lakes and rivers have experienced dozens of illegal fish introductions that pose real and immediate threats to our native fish populations and our traditional fisheries.

Unauthorized introductions of invasive, exotic fish species are particularly destructive to Maine's native fish species, especially brook trout populations. Introductions of invasive fish cause irreversible changes to entire aquatic ecosystems. Strategies to eliminate or control invasive fish are difficult to design and implement, costly, and are only effective in limited situations.

Recent news about strange South American fish (pacu) in Limestone, Maine or snakeheads in New York grab people's attention, but the spread of more commonly known species (largemouth bass, northern pike, rainbow smelt, black crappie) constitutes the greatest threat in Maine.

How wide spread is this problem?

Since May 2006 approximately 100 new introductions have been documented by MDIFW fisheries biologists throughout the state.

Where do these introductions occur?

In the past the vast majority of introductions occurred in southern, central, and coastal Maine. In recent years invasive fish are being established at a higher rate in western and northern regions where most of Maine's wild brook trout and Arctic char populations are located.

When a non-native or invasive species is illegally introduced into a waterbody the following impacts can occur:

1. Prey upon existing fish species in that waterbody.
2. Compete with existing fish species for food and habitat.
3. Spread to other waterbodies (upstream and downstream) that are connected to the original water. This expands the range of the new species and continues impacting other existing fish populations.
4. Increase the potential for fish diseases to be spread and for the introduction of new diseases from outside of Maine. Existing Maine regulations on the importation of live fish and health screening requirements for authorized transfers have prevented the spread of most fish diseases into Maine from neighboring states.
5. Once an introduced fish species becomes established in a waterbody the fish community is FOREVER CHANGED!

What can you, the angler, do?

Properly dispose of unused bait. Always dispose of unwanted baitfish on land or in the trash. DO NOT release any live baitfish into a waterbody!

Anglers are strongly encouraged to harvest all northern pike, muskellunge and walleye and not release them back to the water alive.

Follow fishing regulations. Regulations that restrict anglers to fly-fishing only, artificial lures only, or preclude the use or possession of live fish are often intended to prevent the introduction of new fish species to sensitive areas of the state. Please follow all regulations in regards to the use of terminal gear (tackle) as stated in the fishing lawbook.

Report introductions. If you observe a person releasing live fish into a waterbody, gather any information on the person's description, boat hull number or vehicle license plate number if applicable. Report your observation by calling Operation Game Thief at 1-800-253-7887.

If you catch a fish species that you believe is not known to inhabit a waterbody take a picture and/or kill the fish and freeze it immediately and contact the nearest regional MDIFW Office (listed in the fishing lawbook).

Which species are most often introduced and the problems that they cause?

Largemouth bass – If a waterbody already contains smallmouth bass, largemouth bass commonly outcompete smallmouths reducing their overall abundance. If a trout stocking program is active in a waterbody that largemouth bass become established in, the bass prey upon the stocked trout. This decreases angler catch rates for trout and may prompt MDIFW biologists to stop stocking trout altogether if predation rates on stocked trout become unacceptably high. Introduced largemouth bass have also decimated baitfish populations in many waters, eliminating opportunities to harvest baitfish, both recreationally and commercially.

Northern pike – Pike introductions create a significant change to the fish population structure within a waterbody. They will prey upon any available forage species (smelt, shiners, fallfish, and perch) as well as game fish (bass, pickerel, and both wild and stocked trout and salmon species). This reduces the overall abundance of both forage and game fish, which has drastic impacts to anglers over time.

Muskellunge – Muskies negatively impact wild brook trout populations in Maine. Due to their preference for cool-water habitat muskie actively prey upon native minnow species and brook trout, while also pushing out brook trout from slow water habitat. This reduces the overall abundance of brook trout in ponds and rivers where muskie are present, which greatly reduces angler catch rates of trout over time.

Black crappie – Black crappie compete for forage with existing fish species when introduced to a waterbody. Due to their fast growth rates and high productivity, crappie can quickly become abundant. A unique life history trait exhibited by crappie is large-scale downstream movement of young-of-year fish. This allows for quick colonization of downstream waters.

Smallmouth bass – When smallmouth bass are introduced into waters with wild brook trout populations they prey upon the brook trout and compete with trout for food and available habitat. As the bass population becomes more abundant they will reduce or extirpate brook trout and spread into accessible waters upstream or downstream.

Landlocked alewife – Landlocked alewives compete with smelt populations, often reducing the abundance of smelt in a waterbody. This change produces a profound negative impact to landlocked salmon because smelt are the primary forage for salmon. Reduced smelt abundance decreases salmon growth and abundance, along with angler satisfaction.

Rainbow smelt – Smelt are common in many waters and are native to Maine. Though often used for bait, their introduction into wild brook trout ponds and small-sized Arctic char waters cause significant negative impacts to trout and char because adult smelt prey on the young of both species.

Why is it difficult to remove fish once introduced?

The removal of unwanted organisms from aquatic environments (water) is much harder to address compared to terrestrial environments (land). Special fishing regulations to limit population growth of an introduced species are generally ineffective over the long term. The use of rotenone to chemically reclaim a waterbody is highly effective, but its use is limited to smaller lakes and ponds due to the high costs and the impracticality of achieving complete removal in larger waterbodies with extensive tributary systems.

The illegal introduction of any fish into any Maine water is a Class E crime, punishable by fines up to \$10,000! The Maine Department of Inland Fisheries and Wildlife is offering a minimum reward of \$2,000 for information leading to the apprehension of persons responsible for the illegal introduction of fish. Call Operation Game Thief at 1-800-253-7887.

MUSKIE, PIKE, OR PICKEREL?

Anglers are encouraged to harvest northern pike and muskellunge and not release them back to the water alive.

MUSKIE, PIKE, OR PICKEREL?

To view images and information on freshwater fish species in Maine visit: <http://www.maine.gov/ifw/fishing/species/identification/index.htm>

Muskellunge – Dark, vertical bars on light green or brown background.

Only upper half of cheek and gill cover scaled.

Northern Pike – Light colored, irregular markings on dark background along flank. Dorsal fin insertion slightly ahead of anal fin.

Scales on only the upper half of gill cover

Chain Pickerel – Dark, chain-like markings on light background along flank, and a dark vertical line under eye.

Cheek and gill cover fully scaled.

MAINE WARDEN SERVICE

The Maine Warden Service reminds you to be responsible when recreating in Maine's outdoors and obey all laws and rules in place for your safety and resource protection.

Remember that when accessing private land always respect the landowner and the privilege to use their land.

We encourage you to visit our website which contains a variety of information related to our mission, career opportunities, and frequently asked questions.

www.mainegamewarden.com

KNOW THE S-33 CODE!!
 (Maximum length limit on landlocked salmon and brown trout: 25 inches)

Atlantic salmon occur in many of Maine's inland waters and can be found with landlocked salmon and brown trout.

Atlantic salmon are listed as endangered species by the U.S. Fish and Wildlife Service and are considered a closed species by the State of Maine. To help protect them and ensure anglers do not inadvertently "take" an endangered

species through misidentification, the S-33 code was developed.

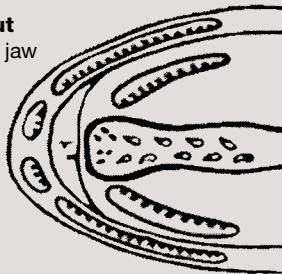

Atlantic Salmon occur in a variety of color phases from black to silver to brown, and can look similar to brown trout in coloration. Atlantic Salmon also occur in regions of the state not subject to the S-33 rule. Therefore, anglers should use caution and make proper identification any time a large Salmonid is caught. **Any Atlantic salmon incidentally caught must be released immediately, alive and uninjured. At no time should Atlantic salmon be removed from the water.**

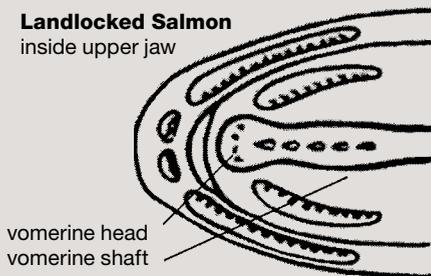

IDENTIFICATION OF LANDLOCKED SALMON AND BROWN TROUT

The more obvious difference between landlocked salmon and brown trout may be found in the head and tail areas. Knowing them may help the angler release a fish more quickly when certain creel and size restrictions apply. On landlocked salmon, the vomerine teeth are small and arranged in a single row along the vomerine shaft, few to none on vomerine head. On brown trout, the vomerine teeth are well-developed on both vomerine head and shaft, arranged in a zig-zag row on shaft. On landlocked salmon, the caudal fin may be slightly forked and on the brown trout, the caudal fin is square and unforked.

Brown Trout
inside upper jaw

Landlocked Salmon
inside upper jaw

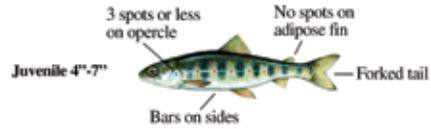

Know the species you catch!

Brown Trout

Atlantic Salmon

Brook Trout

To help eliminate confusion, there is a 25 inch maximum length limit on brown trout and landlocked salmon on this water.

"If you don't know, be safe and let it go!"

SALTWATER FISHING & ANADROMOUS ATLANTIC SALMON

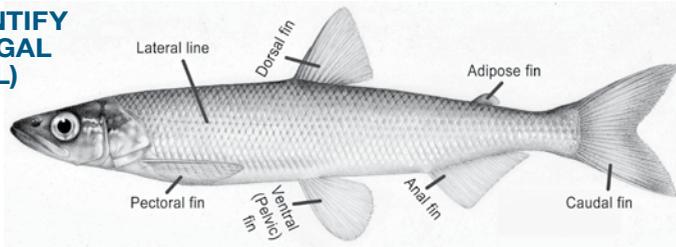

For current saltwater recreational fishing regulations, please visit the Maine Dept of Marine Resources (DMR) website at www.maine.gov/recreational or call the DMR at 633-9500.

It is unlawful to angle for, take, or possess anadromous Atlantic salmon from all Maine waters (including all coastal waters), unless otherwise permitted by DMR. If an Atlantic salmon is incidentally hooked it should not be removed from the water, and it should be released immediately.

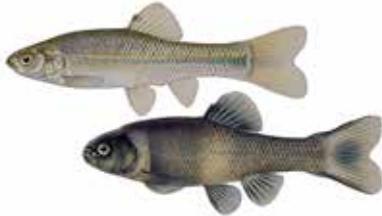

MOST COMMON BAITFISH

HOW TO IDENTIFY COMMON LEGAL (AND ILLEGAL) BAITFISH

Rainbow smelt:

- Long, slender, and silvery
- Adipose fin present

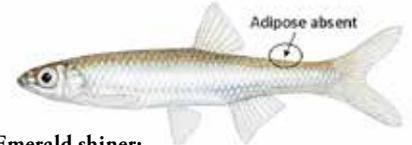

Fathead minnow:

- First dorsal fin ray is short and thick
- Distinctive fat/flattened head shape
- Generally 2-2.5" in length

Creek chub:

- Similar to Lake Chub but with a dark spot at base of dorsal fin
- Upper jaw extends at least to below front of eye

Emerald shiner:

- Long, slender body with a blunt snout
- Similar in appearance to rainbow smelt but adipose fin absent
- Large scales
- Front of dorsal fin completely behind middle of base of pelvic fins

Sucker (White and Longnose):

- Mouth points downward with thick lips
- Large scales
- Adults can be over 22" in length

Northern redbelly dace:

- Two black lateral bands down body
- Males may exhibit bright red coloration on bellies
- Similar legal species include blacknose, longnose, pearl, and finescale dace

Common shiner:

- Deep bodies with a slightly downward curving lateral line (curved less deeply than the golden shiner)
- Scales on sides near the front of the body are obviously taller than they are wide
- Mature individuals may have red fins (also known as the "Redfin Shiner")

Lake chub:

- Similar in appearance to Creek Chub, but lacks a dot at the base of the dorsal fin
- Mature adults may have bright orange/red spots where the pectoral fins meet the body

Golden shiner:

- Deep flattened body with a strongly downward curving lateral line
- Large scales
- Sickle-shaped anal fin
- Fleshy "keel" (lacks scales) between the pelvic fins and anal fin

Please note: These are not the only legal baitfish species, only the more common ones. For a complete list of which species are legal to use as bait and which species are not legal to use as bait, please see baitfish restrictions on Pg. 50.

IT IS ILLEGAL TO USE THESE FISH AS BAIT

When in doubt or if it cannot be identified, don't use it!

Stickleback (any species)

Anything in the pike, muskie, or pickerel family

Spiny rayed fish:

Including but not limited to any bass, sunfish, perch, crappie, or any other fish that has hard, spiny rays on their fins.

Brown bullhead (hornpout, catfish)

Any species not listed as legal baitfish: including but not limited to carp, rudd, goldfish, walleye, alewives, and sculpin.

IMPORTATION OF BAITFISH PROHIBITED

It is unlawful to import any live baitfish or smelts into Maine.

BAIT DEALER'S LICENSE

It is unlawful for any person to deal in live baitfish or live smelts without first obtaining a valid dealer's license. For further information, contact IF&W. (**Note:** A person may take live baitfish for their own use, by the use of hook and line or bait trap only, if that person holds a valid fishing license.)

MARKING HOLES

When using drop nets to fish through the ice for baitfish/smelts, all holes made in the ice **must be marked** either by evergreen boughs placed around the hole, or by suspending at least 1 strand of fluorescent biodegradable tape at least 3 feet above the ice around the entire perimeter of the hole so that the tape is visible from all sides.

STORING LIVE BAITFISH

Live baitfish may not be stored or held in any waters where the use or possession of live fish as bait is prohibited during the entire ice fishing or the entire open water fishing season. This includes waters restricted to the use of artificial lures only, waters restricted to fly fishing, and where there are other prohibitions on the use of live fish as bait. To obtain a list of Maine waters where baitfish cannot be stored please contact IFW's Augusta Office, or visit IFW's website: mefishwildlife.com.

TAKING OF BAIT FISH FOR PERSONAL USE

- *All waters are open to the taking of baitfish for personal use, including brooks, rivers and streams, unless designated "closed to the taking of live baitfish" (see special rules beginning on page 16).*
- Any person with a valid Maine fishing license may take baitfish for their personal use.
- Baitfish taken are for personal use only and may not be sold without a bait dealers license.
- All baitfish traps and holding cages must be labeled with the owner's name and address.
- Baitfish traps may not exceed 50 cubic feet in volume.
- Baitfish traps must be tended at least once every 7 days by the person who set them.
- The following species are considered legal baitfish. Any species of fish not listed below, except smelt, may not be used as bait (live or dead) for fishing in inland waters. All other fish species must be immediately released alive into the water where they were captured.

Blacknose shiner
Creek chub
Fallfish
Bridle shiner
Lake chub
Creek chubsucker
Common shiner
Blacknose dace

Longnose sucker
Emerald shiner
Finescale dace
White sucker
Golden shiner
Longnose dace
Banded killifish
Spottail shiner

Northern redbelly dace
Mummichog
Eastern silvery minnow
Pearl dace
American eel
Fathead minnow

TROUBLE BY THE BUCKETFUL

That's what the illegal introduction of exotic species brings to Maine's waters.

Some thoughtless individuals are attempting to destroy the future of Maine's native fisheries. These non-sportsmen illegally stock the type of fish they prefer to catch, without regard for the environmental havoc they inflict on the resource. Illegal stocking selfishly denies the people of Maine the right to decide what is best for our waters.

Please help fight this serious problem.

- It is illegal to transport live fish without a permit except legal baitfish or smelts.
- It is illegal to dump unused baitfish into any waterway.
- There is a \$10,000 fine for a conviction of illegal stocking.
- Always keep your ears and eyes open for those who are committing these senseless acts.
- If convicted, the license revocation has increased from 1 to 5 years.

To report information about an illegal introduction please call:

1-800-ALERT-US (253-7887)
In-State
(207) 287-6057
Out-of-State

PREPARING FOR A CARVING

Plan ahead! Keep a soft tape measure and camera in your fishing gear. Take a few pictures of the fish to help record distinguishing characteristics and color. Measure the fish's length (from the center of the tail to the snout) all while handling the fish out of water as little as possible. Then follow the **Tips for Catching and Releasing Fish** on page 61.

The information is all that a carver needs to make a replica of the catch you made and the fish is available to be caught by another lucky angler.

Introductory Skills Weekend 2014
September 12-14
Camp Caribou
Winslow, ME

Sponsored by the Maine Department of Inland Fisheries and Wildlife & Friends of Maine BOW

Licensing Requirements On Boundary Waters:

Either a Maine or New Brunswick License will be honored while fishing on the main body of the waters listed below, or on boundary river waters, including the main stem of the St. Croix River. Fishing on these waters in any area or cove where jurisdiction can be determined by a straight line drawn between two points of land, or fishing while positioned on shore or tied up to shore requires the appropriate agency license.

ICE FISHING

Waters Affected By This Section Are As Follows:

In Aroostook County

Glazier Lake (1), North Lake, The Thoroughfare between North Lake and East Grand Lake, and East Grand Lake (2), St. John River, from the International Bridge in Van Buren downstream to Maine/New Brunswick border at the easternmost border of the Town of Hamlin.(4)

In Washington County

Mud Lake, East Grand Lake (2), Spednic Lake (3), Grand Falls Flowage (5) east of a line between red markers on McAlister Point and Abbot's Point, and St. Croix River Flowage (Woodland Flowage)

The Following Regulations Apply On Above Waters:

Open season

January 1 - March 31.

Daily bag limits

- On landlocked salmon, trout, togue, and black bass: three fish in the aggregate not to include more than 2 landlocked salmon, 2 togue;
- On whitefish - three (3), no size or weight limit;
- On smelts - sixty (60), no size or weight limit;
- On Cusk - ten (10), no size or weight limit;
- On pickerel - ten (10), no size or weight limit;
- All other species (except Atlantic sea run salmon) - NO limits.

Minimum length limits

- Landlocked salmon: 14 inches (35 cm)
- Black bass: 10 inches (25 cm)
- Togue: 18 inches (45 cm)
- Trout: 6 inches (15 cm)

Equipment

On all waters open to ice fishing - five (5) lines per person.

Bait

Use or possession of spiny-finned fish as bait is prohibited.

Legal hours

From 2 hours before sunrise until 2 hours after sunset. (No night fishing.)

Exceptions

1. **Glazier Lake** is open to the taking of cusk in the nighttime with 5 lines.
2. **East Grand Lake:** Daily bag limit on landlocked salmon, trout, togue, and bass: 5 fish in the aggregate, not to include more than 2 landlocked salmon, 1 togue, 1 bass, and all 5 may be brook trout. S-28.
3. **Spednic Lake:** Closed to the taking of smallmouth bass. No size or bag limit on largemouth bass. S-28.
4. **St. John River, Van Buren to Hamlin:** Total weight of landlocked salmon, trout, togue, and black bass is not to exceed 7½ pounds (3.5 kg).
5. **Grand Falls Flowage:** All smallmouth bass caught must be released alive at once. S-28. No size or bag limit on largemouth bass.

Brook Trout Management and Stocking Strategies in Maine's Southern and Eastern Counties

Two general approaches are used to create recreational fisheries for brook trout in Maine's Southern and Eastern Counties. These two strategies reflect very different stocking programs and angler harvest opportunities, and are therefore managed under different suites of regulations.

"Put-and-Take" or "Catchable" fisheries are created by stocking brook trout of a size that are legal to harvest at time of stocking, and are reserved for waters with marginal or only seasonally suitable habitat. The management objective on this type of water encourages harvest of stocked trout that will only survive to provide a fishery for a brief period of time. Brook trout are selected for this program because they are a highly sought-after native fish that are readily caught by anglers. Waters selected under this program typically do not support wild brook trout, and do not support year round "put-grow-and-take" fisheries for brook trout or other cold water fish due to environmental (e.g., summer water quality, limited spawning/nursery habitat) or biological limitations (e.g., interspecific competition, predation). Selected waters also offer good public access and are located in proximity to human population centers to encourage utilization of stocked trout. Traditionally, stocking focused on the spring fishing season, but programs have expanded to create fall and winter fisheries.

Few fishing restrictions are applied to waters managed exclusively for "put-and-take" fisheries. For example, trout stocked in the fall to create winter brook trout fishing may be caught through the ice in December, a full month earlier than allowed on other "put-grow-and-take" ponds open

to ice fishing, where conservation of stocked fish is a greater management concern. Most "put and take" rivers open to year-round fishing may be stocked in the spring and again in the fall, and these trout may be harvested anytime. Two-trout bag limits are generally imposed to help distribute the harvest amongst anglers and lengthen the duration of the fishery.

"Put-Grow-And-Take" fisheries may be supported by hatchery-reared brook trout, or other coldwater species such as landlocked salmon and lake trout (togue). Stocked fisheries are created where year-round adult habitat exists, but spawning and nursery habitat are lacking, or where heavy predation and/or competition from warmwater fish severely limit survival of wild trout or salmon. Typically, brook trout are stocked at a size below the minimum legal length limit. These smaller fish, which are much less expensive to produce, are planted with the expectation that they'll grow to larger size and contribute to the development of a multi-age class fishery. Most put-grow-and-take waters are closed to winter fishing, favoring a high quality open water angling experience. Fall fishing on "put-grow-take" waters are typically subject to artificial lures only, catch and release restrictions. For those that open to ice fishing, harvest is precluded prior to January 1. These restrictions support year round fishing, while maintaining high catch rates and harvest opportunity during traditionally high use fishing periods (i.e., early winter and spring).

Secondary fisheries for "put-and-take" brook trout may compliment "put-grow-and-take" fisheries for other types of stocked (e.g., brown trout, rainbow trout, Splake, etc.) or even wild coldwater fisheries (e.g., lake trout). These secondary "put and take" fisheries for brook trout offer higher catch rates in waters that may offer slower fishing under solely "put-grow-take" management. Fishing regulations in these waters generally emphasize "put-grow-and-take" management.

OPEN WATER FISHING

Waters Affected By This Section Are As Follows:

In Aroostook County

St. Francis River (9), Glazier Lake (9), St. John River (downstream from the confluence with the St. Francis River)(9), Monument Brook, North Lake (7), The Thoroughfare between North Lake and East Grand Lake, and East Grand Lake (5,6).

In Washington County

East Grand Lake (5,6), Mud Lake, St. Croix River (1,2,3,4), Spednic Lake (4,5), Woodland Flowage (St. Croix River Flowage) (2,8), and Grand Falls Flowage east of a line between red markers on McAllister's Point and Abbott's Point (10).

The Following Regulations Apply On Above Waters:

Open season

April 1 through September 30.

Equipment

Not more than 1 line per person.

Daily bag limits

- On landlocked salmon, trout and togue (lake trout): Five (5) fish, not to include more than 2 landlocked salmon and 2 togue (lake trout), all 5 may be trout. Total weight of these fish not to exceed 7-1/2 pounds (3.5 kg).
- On black bass: April 15 – June 30: 1 fish; July 1-September 30: 3 fish.
- On smelts: sixty (60), no size or weight limit.
- On whitefish: three (3), no size or weight limit.
- On Cusk - ten (10), no size or weight limit.
- On Pickerel - ten (10), no size or weight limit.
- All other species (except Atlantic salmon): NO LIMITS.

Minimum length limits

- Landlocked salmon: 14 inches (35 cm)
- Black bass: 10 inches (25 cm)
- Togue: 18 inches (45 cm)
- Trout: 6 inches (15 cm)

Bait

Use or possession of spiny-finned fish for bait is prohibited.

Legal hours

From 2 hours before sunrise to 2 hours after sunset. Legal fishing hours and open season herein do not apply to the taking of smelts from waters or portions thereof naturally free of ice.

Exceptions

1. **St. Croix River from Milltown Dam to the Unionville bridge line (located at the end of Todd St. in Calais): S-5.**
2. **St. Croix River from Grand Falls Dam down to Milltown Dam, including the Woodland Flowage:** Remains open to fishing through October. From October 1 - October 31: artificial lures only; all fish caught must be released alive at once. Except no size or bag limit on largemouth bass.
3. **St. Croix River from Vanceboro Dam to Grand Falls Dam:** No size or bag limit on largemouth bass.
4. **Spednic Lake and the St. Croix River from Mud Lake to Spednic Lake:** Closed to the taking of smallmouth bass. No size or bag limit on largemouth bass. Not more than 2 lines per person.
5. **East Grand and Spednic Lakes: S-2, S-3, S-28.**
6. **East Grand:** Daily bag limit on landlocked salmon, trout, and togue: 5 fish in the aggregate, not to include more than 2 landlocked salmon, 1 togue, and all 5 may be brook trout. Daily limit on white perch: 25 fish. The 7 1/2 pound weight limit does not apply. Not more than 2 lines per person.
7. **North Lake, Orient: S-2, S-3,** Not more than 2 lines per person.
8. **Woodland Flowage S-28.** No size or bag limit on largemouth bass. Remains open to fishing through October. From October 1 - October 31: artificial lures only; all fish must be released alive at once (except no size or bag limit on largemouth bass).
9. **Glazier Lake, St. Francis River, St. John River: S-13.** From October 1 - November 30: S-6, S-13. Open to taking of bass and muskellunge only.
10. **Grand Falls Flowage: S-28.** All smallmouth bass caught must be released alive at once. No size or bag limit on largemouth bass.

PROPERLY HANDLING SOFT PLASTIC BAITS

Soft plastic baits are becoming increasingly popular when fishing for a variety of freshwater fish. However, many are concerned that too many of these discarded baits are ending up on lake bottoms or in the bellies of fish.

You can do your part to make sure that these baits are handled properly. When done fishing, never discard these used baits into the water. Keep a small ziploc bag with you and dispose of your plastic baits properly at the dock or at home. Fish can ingest these baits off the bottom, and they can impact fish health.

You can also extend the useful life of your plastic baits quite easily. For those who like to fish soft plastic baits "Wacky" style, use a small o-ring in the middle of the bait, and place your hook right under the o-ring. That way, if your hook pulls through the bait, the o-ring will retain your bait.

Anglers say they get a much longer life with their plastic baits when they use this method. You can purchase an o-ring tool at tackle stores. This tube-style tool allows you to roll the o-ring right to the middle of your bait. Anglers can even use zip ties instead of an o-ring. Just cinch a small zip tie right in the center of your bait, and slip the hook under the zip tie.

If you fish your plastics Carolina or Texas rigged, you can utilize an instant glue that

will repair your plastic baits quickly and extend their life. Many tackle shops carry this instant glue for soft plastic baits, and it will pay for itself in no time.

Perhaps the best thing you can do is inspect your soft plastic bait frequently. After catching a fish, make sure your bait is still intact. If your bait is worn and will likely fall off, replace it with a new bait, re-hook it, or repair it.

Soft plastic baits can help you catch more fish, but if you want to ensure the health of future fisheries, please make sure to dispose of your plastic baits properly, and discard or replace any worn baits while fishing.

All of these lures were found in the stomach of a 14 pound Lake Trout caught by George Manley of Sidney, Maine in Maranacook Lake in 2009

Licensing Requirements On Border Waters:

Fishing licenses issued to any person by either this State or New Hampshire shall be recognized when used on any lake or pond which is partly in both States of Maine and New Hampshire.

Waters Affected By This Section Are As Follows:

In Oxford County

- Lower Kimball Pond, Fryeburg, Maine; Chatham, New Hampshire.
- Umbagog Lake, Upton, Maine; Errol/Cambridge, New Hampshire (waters of Umbagog Lake include the waters of the Androscoggin River upstream of the Errol Dam, the waters of the Magalloway River within the State of New Hampshire, and the waters of the Rapid River upstream to the marker at Cedar Stump in the State of Maine).

In York County

- Great East Lake, Acton, Maine; Wakefield, New Hampshire.
- Salmon Falls River, Acton, Lebanon, Berwick and South Berwick, Maine; Milton, Rochester, Somersworth and Rollinsford, New Hampshire. Included is the upper reach of the Salmon Falls River beginning at the outlet dam of Great East Lake, also known as the State Line Canal, to a point downstream marked by signage delineating the northern terminus of Horn Pond.
- Province Lake, Parsonfield, Maine; Effingham, Wakefield, New Hampshire.
- Balch and Stump Ponds, Acton, Maine; Wakefield, New Hampshire.

- Horn Pond, Acton, Maine; Wakefield, New Hampshire. Signs posted at the downstream extent of the Great East Dam Outlet Canal denotes the boundary between Horn Pond and the Salmon Falls River.
- Milton Watershed, Lebanon, Maine; Milton, New Hampshire-Milton Watershed includes all of the Milton Three Ponds-Northeast Pond, Milton Pond, Townhouse Pond (beginning at the dam in Milton to the influx of the Branch River and the Salmon Falls River).
- Spaulding Pond, Lebanon, Maine; Milton, New Hampshire.

Daily bag limits

- Landlocked salmonNo landlocked salmon through the ice, 2 fish open water fishing.
- Trout, and togue.....5 fish, but no more than 2 landlocked salmon, 2 togue, 2 rainbow trout, 2 brown trout, or 2 brook trout.
- Pickerel.....5 fish.
- BassOctober 1 – June 20: 1 fish; June 21-Sept. 30: 3 fish (only 1 may exceed 14 inches).

- Smelt2 quarts by hook and line only (Exception: Lower Kimball Pond).

- All other speciesNo bag limits.

Any legal fish, except baitfish and smelts, taken from the waters shall be immediately released alive into the waters from which it was taken or shall be killed at once and become part of the daily bag limit.

Minimum length limits

- Salmon14 inches.
- Togue18 inches (Exception: Great East Lake).
- Brook trout.....6 inches (Exception: Umbagog Lake).
- Brown and Rainbow trout.....10 inches in lakes and ponds — 6 inches in rivers and streams.
- Bass12 inches.
- All Other Species.....No length or weight limits.

No dead or living pickerel, goldfish, yellow perch, white perch, bass, sunfish, crappie, horned pout (bullhead), carp, or any spiny finned fish shall be taken, sold, or possessed for use as bait for fishing in New Hampshire-Maine interstate waters.

ICE FISHING

General Interstate Ice Fishing Rules:

- Open to ice fishing: January 1 - March 31: All species except landlocked salmon (Exception: Salmon Falls River).
- No landlocked salmon through the ice.
- No cusk fishing.
- No more than 5 lines are permitted at any one time while ice fishing (EXCEPTION: Great East Lake).

Exceptions To The General Interstate Ice Fishing Rules:

Umbagog Lake

Closed to ice fishing is that portion of the lake north of a straight line from a red marker set on a point between Spillman and Glassby Coves on the east shore in Maine, and a red marker set at Molls Rock, so-called, on the west shore in New Hampshire. S-18

Great East Lake

Restricted to two lines per person. Minimum length limit on togue: 16 inches. Tributaries closed to the taking of smelts.

Lower Kimball Pond

Smelt dipping is allowed between sunset and 10:00 p.m. with nets not over 18 inches in diameter.

Salmon Falls River

Closed to ice fishing.

Conservation Director
dgaudreau@metrocast.net

OPEN WATER FISHING

General Interstate Open Water Fishing Rules:

- Open to open water fishing;
- April 1 - September 30, open to the taking of all species.
- October 1 - November 30, lakes and ponds are open to fishing; all trout, landlocked salmon, togue, and bass must be released alive at once.
- December 1 - December 31, no fishing in any waters, except Salmon Falls River.
- No more than 2 lines are permitted at any one time.

Gear Restrictions:

April 1 - June 20, bass may be taken only with artificial lures and flies.

Exceptions To The General Interstate Open Water Fishing Rules:

Umbagog Lake

Open water fishing season and bag limits: S-18.

Great East Lake

Open water fishing season and bag limits: see Border Rules. Minimum length limits: Togue - 16 inches; salmon - 14 inches; brook trout - 6 inches; brown trout and rainbow trout - 10 inches; bass - 12 inches; all other species - no length or weight limits. Tributaries closed to the taking of smelts.

Lower Kimball Pond

No exceptions to the border rules, except smelt dipping is allowed between sunset and 12:00 Midnight with nets not over 18 inches in diameter.

Salmon Falls River

Tidewater upstream to Great East Lake Dam (excluding all ponds and lakes on the river): Open to open water fishing from January 1 - December 31.

WARNING ABOUT EATING FRESHWATER FISH

Mercury in Maine freshwater fish may harm the babies of pregnant and nursing mothers, and young children.

- Pregnant and nursing women, women who may get pregnant, and children under age 8 SHOULD NOT EAT ANY freshwater fish from Maine's inland waters. Except for brook trout and landlocked salmon, one meal per month is safe.
- All other adults and children older than 8 CAN EAT two freshwater fish meals per month. For brook trout and landlocked salmon, the limit is one meal per week.

Warning: Some Maine waters are polluted, requiring additional limits to eating fish.

Fish caught in some Maine waters have high levels of PCBs, Dioxins or DDT in them. These chemicals can cause cancer and other health effects. The Bureau of Health recommends additional fish consumption limits on the waters listed below. Remember to check the mercury guidelines. If the water you are fishing is listed below, check the mercury guideline above and follow the most limiting guidelines.

SAFE EATING GUIDELINES

Androscoggin River Gilead to Merrymeeting Bay:	6-12 fish meals a year.
Dennys River Meddybemps Lake to Dead Stream:	1-2 fish meals a month.
Green Pond, Chapman Pit, & Greenlaw Brook(Limestone):	Do not eat any fish from these waters.
Little Madawaska River & tributaries(Madwaska Dam to Grimes Mill Road):	Do not eat any fish from these waters.
Kennebec River Augusta to the Chops:	Do not eat any fish from these waters.
Kennebec River from Shawmut Dam in Fairfield to Augusta:	5 trout meals a year, 1-2 bass meals a month.
Kennebec River from Madison to Fairfield:	1-2 fish meals a month.
Meduxnekeag River:	2 fish meals a month.
North Branch Presque Isle River	2 fish meals a month.
Penobscot River below Lincoln:	1-2 fish meals a month.
Prestile Stream:	1 fish meal a month.
Red Brook in Scarborough:	6 fish meals a year.
Salmon Falls River below Berwick:	6-12 fish meals a year.
Sebasticook River (East Branch, West Branch & Main Stem) (Corinna/Hartland to Winslow):	2 fish meals a month.

The Maine State Indian Tribal Commission has adopted rules which affect the following waters within Indian Territory. Any pond 10 acres or less within Indian Territory is regulated by the Tribe in whose territory the pond is located. Anyone wishing to fish in one of these ponds in Indian Territory should contact one of the following:

Maine Indian Tribal-State Commission
 (207) 817-3799
 PO Box 241
 Stillwater, ME 04489
 mitsced@roadrunner.com
 www.mitsc.org

Penobscot Nation
 (207) 817-7331
 Department of Natural Resources
 12 Wabanaki Way
 Indian Island, ME 04468

Passamaquoddy Warden Service:
 Indian Township – Pleasant Point –
 (207) 796-2677 (207-853-2551)
 PO Box 446 PO Box 343
 Princeton, ME 04668 Perry, ME 04667

General Law Regulations are listed below. Waters subject to special provisions are so indicated.

GENERAL LAW AND SEASON/BAG LIMITS

Open Water fishing season:

April 1 – September 30.

Ice fishing season:

January 1 – March 31.

Species length and bag limits:

If there are no special length and/or bag limits listed within the Indian Territory Waters, then refer to General Law length and bag limits on page 8.

Special rules that differ from General Law provisions are listed for individual waters. Check the list of waters under Passamaquoddy or Penobscot Territory regulations to determine if the water you wish to fish has special regulations. Please note that Open Water and Ice Fishing regulations are listed separately. General Law regulations for fishing Indian Territory waters otherwise apply.

ICE FISHING

Passamaquoddy Territory – Lakes And Ponds

FRANKLIN COUNTY

Lowelltown. **Big Indian Pond, Clear Pond, Elaine Pond, Little Indian Pond, Trout Pond, and Twin Island Pond:** Closed to ice fishing.

HANCOCK COUNTY

T3 ND. **Side Pistol Lake:** Closed to ice fishing. **Lower Pistol Lake:** Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish.

T4 ND. **Kilman (Selmore) Pond, Middle Pistol Lake, and Upper Pistol Lake:** Closed to ice fishing. **Middle Chain Lake and Upper Chain Lake:** Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish.

PENOBSCOT COUNTY

T5 R1 NBPP. **Mill Privilege Lake:** Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish.

SOMERSET COUNTY

Holeb Twp. **(Big) Fish Pond, Little Fish Pond,**

and Grassy Pond: Closed to ice fishing.

Prentiss Twp. **Cape Horn Pond, Duncan Pond, Hall Pond, and Lower Welman Pond:** Closed to ice fishing. **Duncan Pond and an unnamed inlet stream from Hall Pond:** Closed to smelting in every even-numbered year. The daily bag limit on smelts is 1 quart.

WASHINGTON COUNTY

T5 ND BPP. **Lower Chain Lake:** Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish.

Sysladobsis Lake (Lower): Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. T19 MD BPP.

Grassy Pond: Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish.

Penobscot Indian Territory – Lakes and Ponds

FRANKLIN COUNTY

Alder Stream Twp. **Round Mountain Pond:** Closed to ice fishing. **Snow Mountain Pond and Blanchard Pond** are regulated by the Penobscot Nation and are closed to ice fishing.

PENOBSCOT COUNTY

T2 & 3 R9 NWP. **East Branch Lake:** Open to ice fishing from January 1 - March 31, Daily bag limit on bass: 1 fish; minimum length limit on bass is 10 inches. All bass between 16 and 20 inches must be released alive at once. Daily bag limit on brook trout: 5 fish. **Big Mattamiscontis Lake and Little Mattamiscontis Lake:** Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 - March 31. Daily bag limit on brook trout: 5 fish.

T6 R8 WELS. **Mountain Catcher Pond:** Closed to ice fishing. **First Lake Mattagamond:** Open to ice fishing from January 1 - March 31. S-17, S-26. Open to the taking and use of live baitfish.

Rivers, Brooks, and Streams

All rivers, brooks and streams in Indian Territory are closed to ice fishing, including those:

- in the townships listed above in Passamaquoddy Territory and Penobscot Territory;
- located in Passamaquoddy Territory in Penobscot County (T3R9 NWP and TAR7 WELS) and in Somerset County (Alder Brook, Pittston Academy, Soldiertown, and Hammond Townships); and
- located in Penobscot Territory in Penobscot County (Argyle and T3R1 NBPP) and in Piscataquis County (Williamsburg).

OPEN WATER FISHING

Penobscot Indian Territory

FRANKLIN COUNTY

Alder Stream Twp. Blanchard Pond and Snow Mountain Ponds: S-5; no motors allowed.

Round Mountain Pond: Opens May 1. S-5; Daily bag limit on trout: 2 fish; minimum length limit: 10 inches. **Alder Stream:** From confluence of Alder & Little Alder Streams downstream to Penobscot Territory boundary lines: April 1 - August 15: Anglers age 15 and under may use single-pointed artificial lures; S-5 for anglers age 16 and older. August 16- September 30: S-5. **Rest of Alder & Little Alder Streams & tributaries in Indian Territory:** S-5. North Branch Dead River: S-5.

PENOBSCOT COUNTY

Argyle Township - **Sections of Birch, East Branch Birch, and Hemlock Streams in Indian Territory:** General Law Provisions apply (page 8).

T3R1 NBPP - **Section of East Branch Passadumkeag River in Indian Territory:** General Law Provisions apply (page 8).

T2 and T3R9 NWP. **East Branch Lake:** Daily bag limit on bass: 1 fish. All bass between 16 and 20 inches must be released alive at once. Daily bag limit on brook trout: 5 fish.

Mattamiscontis & Little Mattamiscontis Lakes: Daily bag limit on brook trout: 5 fish.

Sections of East Branch Seboeis, Mattamiscontis, and Sam Ayers Streams and Johnny Ayers, Mountain and Squirrel Brooks in Indian Territory: General Law Provisions apply (page 8).

T6R8 WELS. **First Lake Matagamon:** S-17, S-26. Open to the taking and use of live baitfish. **Mountain Catcher Pond:** S-4, Daily bag limit on trout: 2 fish, minimum length limit on brook trout: 10 inches. **Section of Mountain Catcher Stream in Indian Territory:** General Law Provisions apply (page 8).

PISCATAQUIS COUNTY

Williamsburg Twp. **Sections of Merrill, Roaring, Stinking, and Whetstone Brooks and West**

Branch Pleasant River in Indian Territory: General Law Provisions apply (page 8).

Passamaquoddy Territory

FRANKLIN COUNTY

Lowelltown Twp. **Clear, Elaine, Big Indian, Little Indian, and Trout Ponds:** Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches.

Twin Island Pond: S-4, Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Rivers, brooks and streams: General Law Provisions apply (page 8).

HANCOCK COUNTY

T3 ND. **Lower and Side Pistol Lakes:** Daily bag limit on brook trout: 5 fish.

T4 ND. **Kilman (Selmore) Pond:** Daily bag limit on brook trout: 2 fish.

Middle & Upper Chain Lakes, Middle & Upper Pistol Lakes: Daily bag limit on brook trout: 5 fish. Sections of rivers, brooks and streams in Indian Territory in T3 and T4ND: General Law provisions apply (page 8).

PENOBSCOT COUNTY

T5R1 NBPP. **Mill Privilege Lake:** Daily bag limit on brook trout: 5 fish. Sections of all rivers, brooks and streams in Indian Territory in T5 R1 NBPP, T3R9 NWP, and TAR7 WELS: General Law Provisions apply (page 8).

SOMERSET COUNTY

Hammond Twp. **Section of South Branch Penobscot River in Indian Territory:** April 1 - August 15: daily bag limit on trout: 2 fish; minimum length limit: 6 inches (only 1 may exceed 12 inches). From August 16 - September 30: S-6; daily bag limit on trout: 1 fish; minimum length: 6 inches.

Holeb Twp. **(Big) Fish Pond and thoroughfare/ tributary upstream to Little Fish Pond and Grassy Pond:** S-5; daily bag limit on brook trout: 2 fish; minimum length limit: 14 inches. (Department of Inland Fisheries and Wildlife rules prohibit use of motors greater than 10 horsepower).

Grassy Pond: Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches.

Little Fish Pond: S-4, Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Prentiss Twp. **Cape Horn Pond:** S-5; Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches.

Mary Petuche Pond: Subject to Tribal regulation and will be posted.

Duncan Pond: S-6; Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches.

Duncan Pond and unnamed inlet stream from Hall Pond will be closed to smelting in 2002 and every even year thereafter. The daily bag limit on smelts is 1 quart.

Hall Pond: S-5; Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. **Lower Welman Pond:** S-6; daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. **South Branch, Penobscot River:** April 1 - August 15: daily bag limit on trout: 2 fish; minimum length limit: 6 inches (only 1 may exceed 12 inches). From August 16 - September 30: S-6; daily bag limit on trout: 1 fish; minimum length: 6 inches. Sections of all other rivers, brooks and streams in Indian Territory in the above Somerset County Townships, as well as in Alder Brook, Pittston Academy, Soldiertown, and Hammond Townships: General Law provisions apply (page 8).

WASHINGTON COUNTY

T5 NDBPP. **Lower Chain & Sysladobsis (Lower) Lakes:** Daily bag limit on brook trout: 5 fish.

T19 MDBPP. **Grassy Pond:** Daily bag limit on brook trout: 5 fish. Sections of brooks and streams in Indian Territory in T5 NDBPP and T19 MDBPP. General Law Provisions apply (page 8).

JOIN THE OUTDOORS PARTNERS PROGRAM AND SUPPORT MAINE'S OUTDOOR TRADITIONS

Access is the key to outdoor recreation in Maine. Over 90% of Maine is privately owned, yet through the generosity of private landowners, we have access to millions of acres for outdoor activities such as fishing, hunting, snowmobiling, ATVing, canoeing and other activities.

How we treat the land and the landowners while we are outside enjoying these activities is vital in keeping these lands open now and in the future. When accessing private land, please ask for permission. Always carry out more than you carry in. Respect all laws, and the landowner's wishes. Please act ethically and responsibly.

The Outdoor Partners Program works with landowners, large and small, to keep land open for outdoor recreation. Outdoor Partners agree to abide by a code of ethics and to help landowners in return for receiving great benefits and discounts from retailers throughout Maine. For more information and to join today, please visit mefishwildlife.com.

With more than 6,000 lakes and ponds, 3,000 miles of coastline, and 32,000 miles of rivers and streams, few states can match the magnitude of water that Maine has to offer. Which is why boating adds approximately \$150 million to the state's economy each year.

But with the scenic waterways comes a substantial number of boating accidents. **According to the U.S. Coast Guard, there are approximately 5,000 recreational boating accidents in the United States annually, resulting in more than 750 fatalities and 3,500 injuries.** Of the 750 deaths, on average over 500 include victims who drowned without wearing a life jacket.

At the Law Offices of Joe Bornstein, we see victims of boating accidents on a regular basis. That's why we want to help educate boaters on how to be safe when on the open water. Because when it comes to boating safety, a little education can be the difference between life and death.

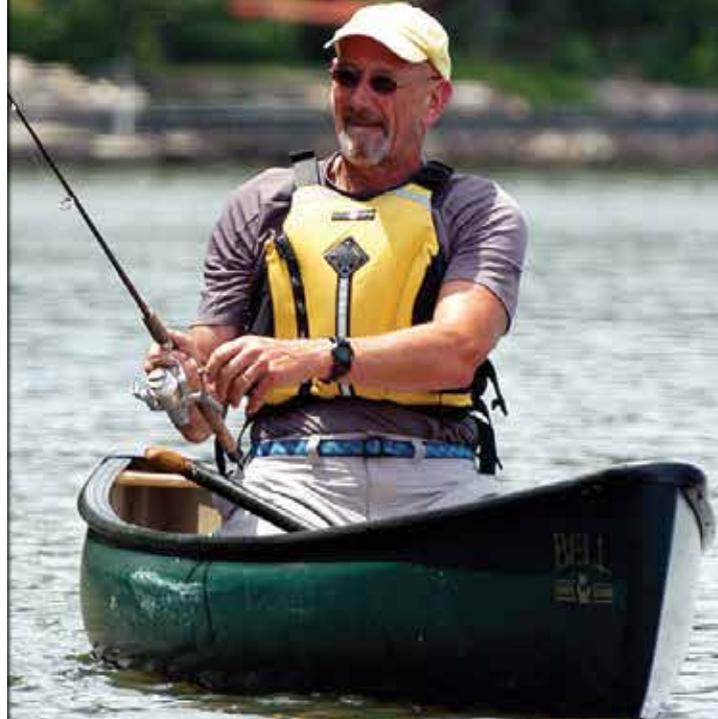

- All motorized boats must carry a current registration sticker from the state.
- The age restriction for operating a personal watercraft, including a jet-ski, is 16. Boaters between the ages of 16-18 must either be accompanied by an adult or have completed an approved education course and carry proof of completion.
- Every boat should have one life jacket per passenger on board.
- Carry an emergency kit and cell phone, and be sure to tell someone where you are headed and when you expect to return.
- Slow down when near other boats, swimmers, and those enjoying the water. Your consideration will allow others to have fun and remain safe.
- Most boating accidents are alcohol-related. Like driving a car, it is illegal to operate a boat with a Blood Alcohol Content level over .08.
- Educate yourself on basic water safety and boating rules. The U.S. Coast Guard strongly recommends that all boat owners take an official boater education course.

By following a few simple safety tips, boaters can enjoy their time on Maine's waterways while ensuring safety for themselves and others. Because at the end of the day, knowing you had a safe and relaxing day out at sea is fun in itself, especially if you don't rock the boat.

For more information on boating safety tips please visit:

CATCHING AND RELEASING FISH

By carefully following these simple instructions, you can release your fish unharmed. If you enjoyed catching your fish, so will the next angler!

- Time is of the essence.** Play and release the fish as quickly and carefully as possible. An exhausted fish may be too weak to recover. Please, do not "overplay" your fish!
- Important: Keep the fish in the water.** Minimize or eliminate the time your fish is out of the water - as little as 30 seconds of air exposure can cause delayed mortality of released trout, or the fish may be subject to a "quick freeze" during the winter months.
- Always wet your hands when it comes time to handle the fish.** Dry hands are much more likely to remove a fish's layer of slime that protects the fish from fungus, bacteria and parasites.
- Photographing your fish can be stressful.** Prepare for taking photos with your fish safely under the water surface. When lifting the fish out of the water, do it for 5 second intervals or less. Try to get the shot (within reason), but return your fish to the water for a rest between attempts.
- Be gentle.** Keep your fingers away from the gills. Don't squeeze the fish. Please, never drag a fish onto the bank!
- Choose the right landing net.** Rubber nets are easier on the fish than traditional twine nets.
- Remove the hook with small pliers or a similar type tool.** If the hook is deeply embedded or in a sensitive area such as the gills or stomach, cut the leader close to the snout. Make an effort to use regular steel (bronzed) hooks to promote early disintegration. Do not use stainless or gold-plated hooks.
- To revive a fish once it is back in the water,** hold it in a swimming position in the water until it is able to swim away.
- Togue (lake trout)** often have expanded air bladders after being pulled up rapidly from deep water. If the belly appears expanded, release the fish from the hook first, then gently press your thumb along the stomach near the paired belly fins and move it forward a few times to remove air from the bladder. Finally, proceed to revive and free the fish.

LOONS & LEAD DON'T MIX

Lead tackle is deadly to waterbirds!

Photograph by Keith Carver

Lead sinkers and jigs cause fatal lead poisoning in loons and other waterfowl. Lead ingestion is the #1 killer of loons in Maine, but any waterbird can die from swallowing just one lead sinker or jig!

YOU CAN:

- Use steel, tin, bismuth or plastic instead. Ask local tackle shops to stock alternatives.
- Properly dispose of old lead sinkers & jigs.

S-CODES & SEASON DATE CODES

Waters which have exceptions to the general law are listed by county. If the water you wish to fish is listed under the appropriate county, the special rules (S-1 through S-33) and season date codes (A, B, Cl, CO, S) will direct you to the specific rules for that body of water. These specific rules will differ from general law or the provisions for Maine's Counties. In most cases, the exception will be one of the codes listed below and may affect only a portion of the regulations that govern that particular body of water. All other provisions of general law would apply. The codes are defined below:

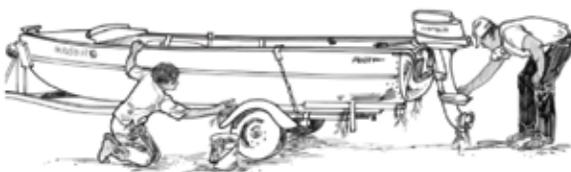

SPECIAL RULES FOR ICE FISHING AND OPEN WATER FISHING – (S-CODES)

- | | | |
|--|---|---|
| <p>S-1: Closed to taking smelts.</p> <p>S-2: Closed to taking smelts, except by hook and line.</p> <p>S-3: Tributaries closed to taking smelts.</p> <p>S-4: Use or possession of live fish is prohibited. (The use of dead fish, salmon eggs, and worms permitted.)</p> <p>S-5: Fly fishing only.</p> <p>S-6: Artificial lures only.</p> <p>S-7: All trout, landlocked salmon, and togue caught must be released alive at once.</p> <p>S-8: Restricted to 2 lines per person.</p> <p>S-9: Open to fishing only for persons under 16 years of age or for persons holding a complimentary fishing license. Restricted to two lines per person. Daily bag limit on trout: 2 fish.</p> <p>S-10: Remains open to open water fishing from October 1 - November 30: artificial lures only; all trout, landlocked salmon and togue must be released alive at once. Closed to open water fishing from December 1 - March 31.</p> <p>S-11: Reserved for additional options.</p> | <p>S-12: Reserved for additional options.</p> <p>S-13: No size or bag limit on bass.</p> <p>S-14: Daily bag limit on bass: 1 fish; all bass between 16 and 20 inches must be released alive at once.</p> <p>S-15: All bass between 13 and 18 inches must be released alive at once. April 1 - June 30: daily bag limit on bass: 1 fish. July 1 - March 31: daily bag limit on bass: 2 fish.</p> <p>S-16: Daily bag limit on trout 2 fish; minimum length limit: 12 inches, only 1 may exceed 14 inches.</p> <p>S-17: Daily bag limit on trout: 2 fish; minimum length limit: 10 inches, only 1 may exceed 12 inches.</p> <p>S-18: Daily bag limit on trout: 1 fish; minimum length limit: 18 inches.</p> <p>S-19: Daily bag limit on trout: 2 fish.</p> <p>S-20: All trout less than 6 inches and longer than 12 inches must be released alive at once.</p> <p>S-21: Daily bag limit on trout: 1 fish; minimum length limit: 14 inches.</p> <p>S-22: Daily bag limit on landlocked salmon: 1 fish.</p> | <p>S-23: Minimum length on landlocked salmon: 16 inches.</p> <p>S-24: Daily bag limit on landlocked salmon: 3 fish; minimum length limit: 12 inches.</p> <p>S-25: Daily bag limit on togue: 1 fish.</p> <p>S-26: Daily bag limit on togue: 3 fish; minimum length limit: 14 inches, only 1 may exceed 18 inches.</p> <p>S-27: Daily bag limit on togue: 6 fish; minimum length limit: 14 inches, only 1 may exceed 23 inches.</p> <p>S-28: Daily bag limit on white perch: 25 fish.</p> <p>S-29: No bag limit on pickerel. From July 1 - September 30: artificial lures only; the minimum length on trout is 8 inches.</p> <p>S-30: Indian Territory Regulations. See page 55 & 56.</p> <p>S-31: Boundary waters with New Brunswick. See page 51.</p> <p>S-32: Border waters with New Hampshire. See page 53.</p> <p>S-33: Maximum length on landlocked salmon and brown trout: 25 inches.</p> |
