STATEMENT BY FIRM CARPENTER ASSOCIATES is an Engineering firm who has successfully been in business for more than 40 years due to a solid, steadfast reputation and dedication to professionalism. Carpenter Associates performs a wide variety of services on a multitude of projects ranging from very small site review projects to large new construction or renovation projects. The firm has successfully designed renovations for numerous facilities including permitting, civil, structural, heating, plumbing and electrical systems. Carpenter Associates prides itself in not only the quality of our design and construction documents, but also in the one-on-one direct contact every client receives. The firm encourages the client to participate in the development process of the project with as much input as possible giving special attention to areas of initial cost and future maintenance.
