STATEMENT BY FIRM Milone & MacBroom is a multidisciplinary consulting firm offering services in the fields of engineering, planning, landscape architecture, survey, and environmental science. Founded 31 years ago, we have developed a reputation for our technical innovation, striving for quality that results in design excellence. The full range of in-house design disciplines and the capabilities of our highly experienced staff enable the firm to undertake a wide spectrum of projects, meet complex program requirements, and achieve challenging schedules.
