STATEMENT BY FIRM Morin Land Surveying provides a wide range of surveying needs to a diverse group of clients. We have a professional and technical staff with over 15 years of experience. Some of the many services we provide are as follows: 1) Boundary Surveying acres range from 2 acres to 350 acres 2) As-built \ Topography Surveys acres range from 0.5 acres to 175 acres 3) Construction stake out 4) Flood Elevation Studies 5) Subdivision Planning and Site Development 6) Mortgage Inspections: Residential, Construction and Commercial Our method of surveying allows us to provide a quality service in a timely manner at a competitive rate. Our data collection enables us to locate information efficiently and accurately in the field and down load directly into our computer. We also have the ability to supply our client a plan in color for a more professional presentation. For our client's convenience, plans are provided on a computerized disk in an Auto Cad format.

The clients we have provided services to in the past and on a continuing basis include utility companies, municipal and state agencies, developers, contractors and private property owners (references available upon request). The # 1 priority of Morin Land Surveying is the quality of our product and meeting the needs of our client. Currant Clients FPL Energy - Ernie Daluca Phone (207) 242-3491 Fax (207) 783-8035. The most recent project within the past two years has been the Upper and Middle Dam restoration located on Richardson and MooselookMeguntic Lake. This involved Topography work and control layout. We have also provided other similar work for the same company. The total estimated cost of the work performed is \$18,000. Department of Defence LTC Dwaine Drummond (207) 626-4291. In 2007 and 2008 we performed Boundary Survey and Topography survey work for DOD on several training sites located throughout the state. The sizes of the individual parcels range from 80 acres to 175 acres more or less. We also performed Boundary / Topography survey work on two parcels being Approximately 50 acres in size. Said parcels were located on the Brunswick Naval Air Station . The total estimated cost of each project performed was \$10,000 to \$24,500.
