NUMBER OF EMPLOYEES

STATEMENT BY FIRM Pine Tree Engineering is a Maine firm specializing in civil and environmental engineering. Our well-rounded experience includes the design of water, wastewater, roadway, and marine projects for many Maine municipalities and State agencies. Members of our firm possess the knowledge and experience needed to provide creative, low-maintenance solutions for waterfront projects ranging in size from small pond launches to larger ocean launches and piers. Pine Tree Engineering has designed ramps, piers, and other marine facilities that have been funded by municipalities and by the Maine Department of Conservation, Department of Inland Fisheries & Wildlife, Department of Marine Resources, and Department of Transportation.
