NUMBER OF EMPLOYEES

STATEMENT BY FIRM Walsh Engineering Associates, Inc. (WEA) is a civil engineering firm offering services ranging from civil engineering design, environmental compliance services, project management, construction administration, permitting, and landscape design. WEA was formed in May 2009 by William R. Walsh III, PE. WEA has a staff of professionals with extensive experience in permitting, design, and construction. With LEED accredited professionals, WEA continually strives to design sustainable projects. WEA prides itself as a local firm providing the technical capabilities and project management skills of larger firms by designing projects that can be easily permitted and constructed in a cost effective manner. As the founding principal of WEA, William R. Walsh III, PE has worked as the design engineer on many large scale State projects including the AMHI parking, 3 new State veterans cemeteries, and Eagle Island shoreline stabilization.
