VOLUNTARY SURRENDER AGREEMENT

On April 29, 1981, Richard A. Roy, L.P.N., voluntarily surrendered his license to practice nursing to the Maine State Board of Nursing. Prior to reinstatement of his license, Mr. Roy agreed that he will not obtain or attempt to obtain employment in any establishment where he may have access to narcotic drugs. Mr. Roy and the Board agreed that his license would be reinstated after Mr. Roy demonstrated to the Board that he can safely practice nursing, because of his control over his addiction to chemical substances. Such control would be demonstrated by his maintenance of sobriety, as documented by a drug counselor, for such a period of time as would indicate his ability to continue his sobriety while in possession of a license to practice nursing.
