Current Population by Controlling Offense
The table to the right shows the total DOC population including men and women by controlling sentence. The 40 offenders in the “NULL” category is a result of the correctional information system not being able to determine a controlling sentence. The “ATTEMP” category represents several offense types where the controlling offense was attempted but not successful. Currently this includes attempted murder, attempt to commit a crime, and aggravated attempted murder. This was last updated in July and will be update every three months as the numbers move very little month to month.

2.0 Correctional Programming

2.1 Correctional Program Fidelity

Beginning in the spring of 2016, DOC staff participated in a University of Cincinnati Corrections Institute (UCCI) training on fidelity monitoring using their group observation and coaching process. The form is designed to provide a platform for trained staff to observe and rate program delivery in six individual skill areas and adherence to specific program curriculums, providing an overall fidelity score. The scores can range from 0-2. A zero score indicates “needs improvement,” 1 indicates “satisfactory,” and 2 “very satisfactory.” Initial overall score goals for Maine DOC programs was set at 1.5, with no individual skill area being under 1. All scores for each observation are entered in a database that keeps cumulative overall scores for each program. Immediately following each observation, rater feedback is provided to program staff to highlight strengths and areas of needed improvement. Cumulative reporting on each program has been provided to identify Department-wide areas of need, and specific targeted training to reinforce skill areas has been provided. The table below shows DOC core programming cumulative scores for 2018 observed programs. To date, all core programs included in the project are being delivered above our initial goal of 1.5.

*These are current to November 5th, 2018*

Intensive Reentry Case Managers

These specialty Case Managers collaborate with facility Case Managers to coordinate the prisoner’s final release plan. Once offender is released, the Intensive Reentry Case Manager can partner with probation in supporting the offender for up to 90 days in the community.

- 281 are active in an education program
- 225 are waitlisted for an education program
- 118 are active in a vocational program
- 213 are on a waitlist for a voc program
- 2 men completed the HSED in October
- 702 are active in, or waitlisted for Edu/Voc
- 41 successfully completed edu/voc program
Statewide Educational and Vocational Programming - Women
Below are education & vocational program stats for female inmates. The average female population was 240 (Women’s Center at MCC and the Southern Maine Women’s Re-entry Center) at the time the October numbers were run.

- 51 women are active in one of the educational programs
- 3 women are waitlisted for an educational program
- 22 women are active in a vocational program
- 27 non-duplicated women are on a waitlist for a vocational program
- 82 women are either active in, or waitlisted for an education or vocational program
- 1 woman completed HSED in October
Hi-SET/HSED Certifications Earned While Incarcerated

HiSET completers, by facility and completion month. These numbers are pulled from CORIS and periodically compared to Department of Education records for reconciliation. The month indicated below should be the same as the actual HiSET Certificated awarded and issued by Maine Department of Education.

* Increased DCF to MVCF(U) transfer for month of February 2018 due to shutdown of the Downeast Correctional Facility (DCF). Minimum offenders housed at DCF were transferred to Mountain View Correctional Facility.
Return to Higher Custody by Facility

Return numbers are for the months of January – Oct. 2018. Transfer to higher custody for reasons including: Population Distribution and Pending Charges are not included in these counts. Case Management transfers are reviewed to determine if the reasons below were applicable to the inmates transfer to higher custody.
