Subject: Charter schools and School Revolving Renovation Fund

Please distribute to charter schools:

This is to provide clarification on the availability of the School Revolving Renovation Fund to Maine's public charter schools. It has been determined that due to legal restrictions charter schools are not currently able to participate in the School Revolving Renovation Fund program. Maine DOE intends to examine how relevant statutes and rules may be amended to potentially permit use of the fund by charter schools in the future.

Thank you.
