Introduction

This Request for Proposals (RFP) is intended to solicit, encourage and guide the development of high-quality public charter school applications throughout the State of Maine. Applications in response to this RFP are for consideration by the Maine Charter School Commission (the Commission) only. Applications for other authorizers will use such applications and procedures as they may develop.

This RFP/Application packet will guide you through the steps of developing a public charter school proposal. Each section requests information about a specific aspect of your plan and presents the evaluative criteria that reviewers will use to determine whether the application demonstrates the applicant's competence in each element of the Commission's published approval criteria and, as a whole, demonstrates that the applicant is ready to open and operate a successful public charter school.

The Commission requires that successful applicants will demonstrate a number of common characteristics:

- A clear, focused, results-oriented mission statement that aligns all parts of the proposal;
- A vision of how the program will improve educational and social opportunities for the charter school's student population and how that will meet a community need and affect the community. (Note: the term "community" refers to the catchment area - the individual school administrative units and towns/cities that are within that catchment area);
- Demonstrated understanding of the population that the school intends to serve;
- An educational program that is likely to be effective for that population;
- A commitment to continuing professional education for faculty and staff;
- Facilities and a facilities maintenance plan that support the program;
- A commitment to inviting the participation of stake-holders in the operation of the school, including parents, students, staff and the community at large;
- Strong, experienced school and board leadership; and
- Strong financial planning and management.

Specifically, the Commission is seeking proposals that include innovative curriculum design, scheduling that supports that design and a school calendar that reflects the mission and vision of the school. The Commission is especially interested in schools that address student populations whose needs are not well served by existing public schools.

The Commission is eager to receive well-developed applications from capable school developers who are committed to educating their students well and improving the lives of children and families in Maine's communities.

The Commission will announce one or more sessions where potential applicants may meet as a group with the Commission to discuss the application and the application process and any questions regarding the application or the application evaluation process.

In the meantime, if you have any questions regarding this application or the application process, please contact us at mcsc@maine.gov.
