Lisa,

Here are the shapefiles. We anticipate starting construction this summer. The snow pumps will pull from Mountain View Pond. The possibilities for development been a discussion but as of right now they are only going forward with the village redevelopment.

Jodi

Hi Jodi,

We're still looking at this and have additional questions. Copying Debbie, as she's looking for comments from us on this as well.

- Could you send us a shapefile that shows the limits of clearing? Something that shows us the trails, where you plan to clear vegetation.
- What is the construction schedule/permit timeline?
- Where are the snow pumps pulling from?
- It's a large project area, are there plans for future work that you know of?

Thank you,

## Lisa St. Hilaire

Hi Lisa,

Attached is the shapefile you requested.

Thanks,

Jodi

Hi Jodi,

Can you send a shapefile that will give us the location of the proposed lift summit stations for the chair lift and zip lines?

Does map C-3 show that an existing lift alignment will be removed and a new alignment placed in the same spot?

MNAP has a mapped subalpine fir forest at the higher elevation in this area, and we'd like a clearer idea of where you're planning your project before sending comments.

Thank you,

## Lisa St. Hilaire

Ms. St. Hilaire,

We are working on a redevelopment project on Big Moose Mountain in Big Moose Township. As part

of our application process we need to contact the Historical Preservation Commission. Please see the attached letter and plans. Please let me know if you have any questions.

Thanks,  
Jodi
