Subject: FW: Roundup Resistant Grass - Attachment now attached!!

Gary,

This is a follow up to our recent telephone conversation on the Kennebunkport Conservation Commission's effort to reduce pesticide use. The attached article was in Turf Magazine, an industry publication to promote the lawn care business. The article also includes a section on low mow grass which was left in to be able to include the author's information at the end of the article.

We are concerned that the use of this grass will create more indiscriminate use of chemicals on lawns. We would appreciate the Board of Pesticide's thoughts on this issue.

Thank you for your attention to this matter,
Carol Laboissonniere (207-475-7870)

On behalf of the Kennebunkport Conservation Commission members who are copied on this message.
