Thank you. I just reviewed this and do not find it adds anything significant to my findings. Dora

There was one other document sent to the DEP in response to this matter by another interested person. I thought I had sent this along too.

Have you seen reviewed document?

Thank you very much,

Thank you very much for the link. I've read all of these and do not see anything with any new insights. Dora

Hi everyone,

We've posted the submission by Attorney Rufus Brown on behalf of Friends of Spruce Mountain at the following ftp server. You should be able to click on the link and your web browser will take you to our FTP site. Once there, you'll need to scroll down and find the file labeled "Rufus Brown Exhibits".

www.maine.gov/dep/ftp/

The last three files are duplicates (I renamed three files for ease of finding what you want but couldn't delete them once they were already posted). If you have any troubles please let me know ASAP.

I'll need your comments on these exhibits no later than 5pm September 24th (Friday).
