**Departmental  
Findings of Fact and Order  
Air Emission License  
Transfer**

**FINDINGS OF FACT**

After review of the file and related materials submitted with regard to the above noted application, pursuant to Title 38, Maine Revised Statutes Annotated (M.R.S.A.), Section 590 and 06-096 Code of Maine Rules (CMR) 115 (as amended), the Maine Department of Environmental Protection (the Department) finds the following facts:

**I. Registration**

Timken NCT LLC has requested the transfer of Air Emission License A-26-71-J-R from Stultz Electric Motors & Controls, Inc. to Timken NCT LLC through an application package received by the Department on August 11, 2014. Air Emission License A-26-71-J-R was issued to Stultz Electric Motors & Controls, Inc. on August 9, 2011. The facility is an armature rewinding shop for the repair of small motors and generators.

**II. Transfer Requirements**

**A. Title, Right, or Interest**

In their application, Timken NCT LLC (Timken) submitted copies of the bill of sale transferring ownership of the facility to Timken NCT LLC. The parties have provided sufficient evidence of title, right, or interest in the facility to allow the transfer of the facility's air emission license.

**B. Technical Capacity and Intent**

Timken's acquisition of the facility is not expected to result in any significant change in the employees who currently operate the equipment and facilities and conduct other activities. The facility's regulatory history with the Department demonstrates that the environmental personnel are competent in air pollution control. The information submitted in the application provides sufficient evidence that Timken has the technical capacity and intent to comply with their air emission license.
