Air Emission License  
Transfer**

**FINDINGS OF FACT**

After review of the file and related materials submitted with regard to the above noted application, pursuant to Title 38, Maine Revised Statutes (M.R.S.) § 590 and 06-096 Code of Maine Rules (C.M.R.) ch. 115, the Maine Department of Environmental Protection (the Department) finds the following facts:

**I. Registration**

MRH Corp. d/b/a Northern Light Mayo Hospital (Mayo) has requested the transfer of Air Emission License A-186-71-F-R from Hospital Administrative District No. 4 to MRH Corp. d/b/a Northern Light Mayo Hospital through a letter to the Department dated 3/1/2020. Air Emission License A-186-71-F-R was issued to Hospital Administrative District No. 4 on 8/25/14. The license was subsequently amended on 4/4/2017 (A-186-71-G-A) and 11/13/2017 (A-186-71-H-M) respectively. The facility is a hospital.

All rules, regulations, or statutes referenced in this air emission license refer to the amended version in effect as of the issued date of this license.

**II. Transfer Requirements**

**A. Title, Right, or Interest**

In their application, Mayo submitted copies of property deeds transferring ownership of the facility to MRH Corp. d/b/a Northern Light Mayo Hospital. The parties have provided sufficient evidence of title, right, or interest in the facility to allow the transfer of the facility's licenses.

**B. Technical Capacity and Intent**

Mayo's acquisition of the facility is not expected to result in any significant change in the employees who currently operate the equipment, facilities, and conduct other activities. The facility's regulatory history with the Department demonstrates that the environmental personnel are competent in air pollution control. The information submitted in the application provides sufficient evidence that Mayo has the technical capacity and intent to comply with their air emission license.
