Transfer**

FINDINGS OF FACT

After review of the file and related materials submitted with regard to the above noted application, pursuant to Title 38, Maine Revised Statutes (M.R.S.) § 590 and 06-096 Code of Maine Rules (C.M.R.) ch. 115, the Maine Department of Environmental Protection (the Department) finds the following facts:

I. Registration

MaineHealth d/b/a Mid Coast Hospital (MaineHealth) has requested the transfer of Air Emission License A-763-71-F-R from Mid Coast Hospital to MaineHealth through a letter to the Department dated 5/17/21. Air Emission License A-763-71-F-R was issued to Mid Coast Hospital on 10/19/15. The facility is a hospital.

All rules, regulations, or statutes referenced in this air emission license refer to the amended version in effect as of the issued date of this license.

II. Transfer Requirements

A. Title, Right, or Interest

In their application, MaineHealth submitted copies of property deeds transferring ownership of the facility to MaineHealth. The parties have provided sufficient evidence of title, right, or interest in the facility to allow the transfer of the facility's licenses.

B. Technical Capacity and Intent

MaineHealth's acquisition of the facility is not expected to result in any significant change in the employees who currently operate the equipment and facilities or who conduct other activities that may affect compliance with the air emission license. The facility's regulatory history with the Department demonstrates that the environmental personnel are competent in air pollution control for licensed units at this facility. The information submitted in the application provides sufficient evidence that MaineHealth has the technical capacity and intent to comply with their air emission license.
