Re: Support for Crossroads Expansion Application

Dear Ms. Butler:

The Town of Windsor, Maine strongly supports Waste Management Disposal Services of Maine's continued operation of its Crossroads facility in Norridgewock. In particular, we support the recently proposed expansion application of the Crossroads facility.

This facility serves a critical role in the management of waste materials for our Town. By having this Crossroads facility it allows us to keep our current costs stable and if this facility wasn't available for us to use it we would be forced to ship our waste significant distances because there are no other local disposal options. This would force us to spend more taxpayer dollars for the same service that is currently available to us locally. Having a local available waste disposal service would benefit our Town and other communities across Maine.

The Town of Windsor, Maine strongly supports Waste Management Disposal Services of Maine expansion of its Crossroads Facility and we would urge the Department of Environmental Protection to do the same.

Sincerely,

Theresa L. Haskell
Town Manager/Tax Collector
Town of Windsor
