Subject: Keep Maine's Air Clean!

Dear Jeffrey Crawford,

After finally getting the air cleaned up at Acadia national Park, so thousands more people with health issues like asthma and heart disease can come here safely as tourists, you are going to drop out of a regional agreement to limit air pollution? I oppose the Department of Environmental Protection's petition to take most of Maine out of the Ozone Transport Region. Given our geographic position, we need strong clean air protections. Maine has some of the highest rates of asthma in the entire country, and we sit at the tailpipe of the nation. We need to continue to move forward on clean air protections instead of backward. Thank you.

Sincerely,
Tracey Allen
