Subject: Keep Maine's Air Clean!

Dear Jeffrey Crawford,

As an elderly Maine resident with asthma, for my own health and the health of many others in the state, I oppose the Department of Environmental Protection's petition to take most of Maine out of the Ozone Transport Region. Weakening Maine's participation in this agreement is the wrong direction for Maine, including the fact that it creates an opening for other states to leave as well, resulting in more ozone pollution for Maine. Given our geographic position, we need strong clean air protections in those upwind states, and in order to achieve that, we need to stay fully committed to this agreement. We need to continue to move toward cleaner air for all of us. Thank you.

Sincerely,
Madge Baker
