**Subject:** Comment on Clean Air Act (CAA) Section 176A(a)(2) Ozone Transport Region Petition

I am emailing you to comment on the CAA OTR petition. I oppose the proposed action to allow the DEP to limit areas of the state where new OTR emissions controls might be required in the future. I also oppose allowing facilities to perform projects without having to purchase emission offsets. Both actions would be extremely detrimental to the environment and public health.

Thank you,
