Subject: Keep Maine's Air Clean!

Dear Jeffrey Crawford,

Please do not take most of Maine out of the Ozone Transport Region. Weakening Maine's participation in this agreement is huge mistake! Maine needs strong clean air standards in upwind states, as well as in our own state and we don't want to leave an opening for other states to leave the agreement as well. Maine has some of the highest rates of asthma in the entire country, and we are called the tailpipe of the nation. We need to strengthen clean air standards, not weaken them. Thank you.

Sincerely,
Leda Beth Gray
