Subject: Keep Maine's Air Clean!

Dear Jeffrey Crawford,

I am vehemently opposed to petition by the Department of Environmental Protection to remove most of Maine from the Ozone Transport Region. Maine should be strengthening, not weakening its participation in this agreement, and exhibit positive leadership. Since we are situated downwind, if other states leave, their departure will result in more ozone pollution for Maine. We have some of the highest rates of asthma in the entire country. For these reasons, it is critical that we stay fully committed to the clean air protections of this agreement.

Thank you.

Sincerely,
Allison Morrill
