Dear DEP

It's high time you listen to what Maine people are saying.

We have had our facts ignored, the laws broken, the land we love ruined at least for many years and, for some reason, no one in your department and, certainly not Janet, cares.

Listen to us... save this state from a project that does not benefit... at least doesn't benefit MOST of Maine citizens.

Sorry, but it really appears that payoffs and bribes are accepted by our 'leaders'

Shut this project down. It is mind boggling to think that is allowed to continue.

Northern Clearing workers from Wisconsin continue to destroy our state working 7 days a week dropping trees into bodies of water and leaving traces of fluids from their machines on the land and in the water.

Now they have reached the banks of Cold Stream.

It's so unbelievable that it continues while this agency drags its feet and allows it to happen.

See you at noon!
