To All DEP Commissioners;

I am writing to express my support for this project and my concern that the DEP is considering suspending the permit NECEC was granted after a thorough and lengthy review.

Rather than suspending the permit, I request that the DEP allow the court to decide on the constitutionality of this very important issue.

Maine and this region of the country needs this project to move ahead. We need a good source of reliable, clean energy, especially as we have become dependent on fossil fuels to generate our electricity.

While there has been opposition to this project, there is always opposition to infrastructure projects, this one makes sense for our State.

I respectfully ask that your agency not take matters into its hands at this point. You have done your work. Please let the court decide the project's fate.

Thank you.
