

2.0 TITLE, RIGHT OR INTEREST

2.1 Introduction

Documentation of CMP's title, right, or interest in real estate required for the NECEC Project are contained in **Exhibit 2-1** of this section. This Exhibit includes a summary table of real estate interests held by CMP as well as a USB flash drive with electronic copies of all deeds, leases, easements, options.

CMP will utilize existing transmission line corridors to the greatest extent practicable for the NECEC Project. Approximately 73 percent of the NECEC Project has been sited in existing transmission corridors, and CMP already holds title, right, or interest to lands within these existing corridors. Regarding Segment 1, the undeveloped corridor between the Canadian border and The Forks Pt, CMP has obtained title, right, or interest, on 100 percent of this corridor.
