Hello Dep,

I have a rough draft of my concerns about your approval of this project. But I respectfully ask that you extend the public comment for one month due to the ongoing public health crisis.

Thanks for the extension.

Good afternoon,

I am writing this to request you to grant the extension for public comment on the NECEC permit. AS you are very much aware, the public is in major disruption from the coronavirus and feel an extension should be granted. The citizens that are following the Governor's and President's recommendations should not be penalized for doing so.

Thank you for considering my input.

Sincerely

Debra J May

I am requesting that you please extend the commenting deadline on the NECEC project. We are currently in a major public health crisis and it is not fair to Maine citizens to close comments at this time when so many are concerned about even having enough food and income to care for their families.

I also think that the MPUC announcing their draft approval with its pitiful attempt at acceptable revisions on 3/13 was a disgraceful attempt to take advantage of the fact that most residents will be focused on other more important matters like their personal health and livelihood.

As you are aware, Maine citizens have collected enough signatures to put this to a vote in November. CMP is doing everything it can to make sure that does not happen. This arrogant company has also begun construction without all permits in place and openly flaunts its disdain for Maine, its environment and its people.

Please do the people of this beautiful state the courtesy granting an extension on comments so that all who are interested can have an opportunity to voice their opinion. The people of the state and our North Woods deserve that.

Thank You
