Hello,

This is Julie Mathieu and Wayne Allen writing to you from Skowhegan Maine regarding the CMP Corridor issue that is on the table for the state of Maine.

We have lived in Maine all of our lives and we choose to live here because of the degree of nature that we are able to experience here- boating, biking, hiking, trail riding, etc.

The motto for Maine is " The Way Life Should be " and for me that has always referred to the protection of the environment so that it can be enjoyed for generations to come.

We are one hundred percent against this proposal to cut through our state to provide electricity for Massachusetts. Maine needs to take a stand for the economy it has built for the tourist industry and also to protect the lands and businesses of Maine residents. New Hampshire made the right decision to say NO and we hope that Maine will too.

We feel that if the state of Maine allows this to happen that we will be making a statement that is completely contrary to what I have always believed we have stood for.

Please make the right decision for Maine, the wetland, the wildlife, the people who value our wilderness.

Julie Mathieu and Wayne Allen
