To whom this may concern, I am strongly opposed to the corridor this is such a bad move for Maine. Environmental impacts will be long lasting for wildlife, fisheries and other species such as amphibians etc. This will also cause great harm to many small businesses along the proposed corridor, who wants to travel to Maine and view a large transmission line cutting through the forest? I believe the corridor will do harm to the tourist industry in this part of the state. I have no idea why Gov. Mills will not listen to the people of Maine it is our state to, also the payback will never outweigh the damage that will be done to the great state of Maine. Sincerely Patrick W. Flynn Skowhegan ME.
