To the DEP:

As a 40 year resident of Waldo County, I have watched the evolution of Penobscot Bay, from a place where factories dump their effluent, smelly and unsightly, to a more balanced ecosystem. Nordic Aqua Farms would again be discharging large amounts of waste into the Bay. This would be going backwards, and it is a huge mistake, which could take many decades to recover from, if recovery would even be possible. Please consider the needs of the earth and waters over the needs of the few people. Without a healthy planet the people will perish.

Thank you,
Jean Wakem
