Dear Ms. Damon: I attach my opposition to the Silver Maple Wind Project. I own a camp on Mountainy Pond and also own land on Hatcase Pond. The project as proposed fails to adequately address environmental concerns regarding habitat, impact on views, protection of birds and bats and this area's exemplary scenic beauty. As importantly, it is hard to understand the economic justification aside from tax advantages to the developer, for such enormous towers. This project will have substantial problems with energy storage and transmission unless Maine adopts a state-wide policy. If this is allowed to proceed, abutters and local communities will be left to live with the resulting environmental damage.

I urge you to deny this application.

Thank you for considering my views.

Sincerely, Shippen Page
