For transparency the people of the State of Maine should know the names of the groups (or PACS) that are funding this program.

Will the State of Maine be guaranteeing to all residents that supply of food and stock of goods will still be on time even when winter Temps are below 0 ?

Will the State of Maine be keeping out all Vacationers that do not have an EV ?

How much more will the State of Maine taxpayers be paying for excise taxes on heavy weighted cars and trucks. (the heavy weight will do lots of damage to the roads).

The State of Maine is a democracy which should mean that Gas or EV cars should be a personal choice.

The urban areas have the use EVs comfortably. The rural areas need more reliability than EV'S can offer.
