BP37WCB Page 1 of 3 Rev. 7/13/2016

State of Maine Waiver of Competitive Bidding Request Form

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The State of Maine Department of Environmental Protection ("DEP"), through the various programs it administers, routinely requires laboratory analysis of environmental samples. In order to ensure both quality and cost controls, the DEP contracts with any willing provider who is certified, licensed or otherwise qualified to provide the laboratory analysis required and awards specific projects based on the lowest cost and availability.

For DEP purposes, qualifications will be based entirely on current Maine laboratory certifications (where applicable) or Maine DEP Asbestos Licensure. In the State of Maine, the Laboratory Certification Program certifies laboratories for the analysis of Drinking Water, Waste Water, Resource Conservation and Recovery Act aqueous, solid and chemical materials, Oil Program or Leaking Underground Storage Tanks ("LUST") Program samples (which includes Maine DRO/GRO and the MA EPH/VPH methods), Environmental Lead Program samples, and Air (including TO-15 and MA APH methods). A complete listing of methods/analytes available for certification and a copy of the Maine Comprehensive and Limited Environmental Laboratory Certification Rules may be obtained at:

http://www.maine.gov/dhhs/mecdc/environmental-health/water/dwp-services/labcert/labcert.htm.

Information regarding Maine DEP Asbestos Licensure may be obtained at:

http://www.maine.gov/dep/waste/asbestos/index.html

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The environmental laboratory testing services required by DEP are not available through staffing. Maine Certified Laboratories (if available) and/or Maine DEP Licensed Asbestos Laboratories are required.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The cost provided for each laboratory is based on historical use of the laboratory or type of laboratory services. Each project will be put through a competitive mini bid process.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

When DEP determines that it needs laboratory services for projects greater than \$2500, DEP staff will develop a mini bid with specific directions which is e-mailed to all laboratories on the prequalified list. The laboratories will submit proposals (e-mail) and DEP will select a winning bidder based on lowest cost and ability to meet specifications provided in the mini bid. In emergencies or for small jobs, DEP may select a laboratory based on practicality, availability and cost.

BP37WCB Page 2 of 3 Rev. 7/13/2016

State of Maine Waiver of Competitive Bidding Request Form

Please note that <u>only one</u> of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

DEP will only contract with willing Maine Certified and/or qualified Laboratories and Maine DEP Asbestos Licensed Laboratories for these services.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
