## Strategy Implementation

- This is a Exclusionary surrounding of the Island 900 feet long.
1. Establish communications with Command Center.
  2. Use river current to assist deployment.
  3. Box in the island using Harbor boom using 3 permanent mooring floats and 1 anchor with a floats.
  4. Multiple layers may be necessary.
  5. Make effort to anchor boom in the water just off of the island.
