

Frankfort / Marsh River

Site, Strategy & Chart #	C-25	C-25-1	13309
Port Region	Penobscot Bay		
Latitude Longitude	44 36.025 N	68 51.325 W	
Water Depth Range	2 - 20	feet	
Max Current (knots)	<i>Flood</i> 2+ knots	<i>Ebb</i>	<i>Source</i> estimated
Nearest Boat Ramp	.5 mile in river off Mt. Waldo Road		
Strategy Type	Exclusion		
Type of Boom	Harbor		
Length of Boom	2700	feet <i>Unless otherwise indicated, the boom length given is straight line distance as measured on the map. Actual length required will vary with conditions, and increase with current.</i>	
Strategy Implementation	Strategy is to secure 300' of intertidal boom to the southern tip of Treat Point and deploy in a easterly (approximately 104 degrees M) direction and anchor toward mid-channel. Use an additional eight 300' lengths of boom to cascade across river to small cove just south of Bowden Point		
Site Access	Frankfort boat launch on Mt. Waldo Road. Trailerable, all-tide		
Staging Areas	Frankfort boat launch.		
Collection Points	Strategy is primarily exclusion. On water collection from Bowden Point side		
Environmental Concerns	Extensive salt marsh in upper areas of Marsh River. Diadromous fish and elver runs.		
EVI Map #	71		
Shoreline Types	Mud Flats, Sheltered		
Other Comments	Strategy has been successfully deployed by Penobscot River Oil Pollution Abatement Committee (PROPAC)
