# Upper Bagaduce River

<b>Site, Strategy &amp; Chart #</b>	C-27	C-27-1	13309
<b>Port Region</b>	Penobscot Bay		
<b>Latitude Longitude</b>	44 24.661 N	68 43.4 W	
<b>Water Depth Range</b>	3 - 19	feet	
<b>Max Current (knots)</b>	Flood	Ebb	Source
<b>Nearest Boat Ramp</b>	Castine Town Dock or South Penobscot (part-tide only)		
<b>Strategy Type</b>	Exclusion / Collection		
<b>Type of Boom</b>	Harbor Boom		
<b>Length of Boom</b>	1500	feet <i>Unless otherwise indicated, the boom length given is straight line distance as measured on the map. Actual length required will vary with conditions, and increase with current.</i>	
<b>Strategy Implementation</b>	Secondary strategy for Bagaduce River. Use two 750 foot lengths of harbor boom to divert oil from upper Bagaduce River to causeway west of Stover Cove		
<b>Site Access</b>	Access causeway (private?) from Coastal Road (Rte 175) in North Brooksville.		
<b>Staging Areas</b>	Castine Town Dock or Maine Maritime Academy.		
<b>Collection Points</b>	Possible, but difficult collection from causeway in North Brooksville.		
<b>Environmental Concerns</b>	Tidal flats, eelgrass, shorebird habitat. Bald eagles nest near site.		
<b>EVI Map #</b>	65		
<b>Shoreline Types</b>	Mud Flats, Sheltered	Rocky Shores	
<b>Other Comments</b>	Difficult access
