

Erosion Control Courses of Maine Certified Underground Storage Tank Installers and Inspectors

The following courses are offered to Maine certified CTIs. Completion of all the listed courses counts towards two (2) continuing education hours. These courses are offered to CTIs free of charge.

Please email the completion certificates for all four courses to Matthew Shank at matthew.shank@maine.gov. Instructions requesting payment or forwarding to any other agency or organization can be disregarded.

Please complete all four of the listed courses:

NPS-52	Why Controlling Erosion is Important
NPS-53	Dirt and Water: The Process of Erosion and Sedimentation
NPS-54	Erosion Controls for Construction Sites
NPS-55	Sediment Controls and Construction Site Considerations
