

Maine Department of Environmental Protection
Waste Discharge Permit Application

Outfall Information

This form must be attached to the General Application for a Waste Discharge Permit

Please answer all questions completely, using additional pages as necessary with responses clearly identified by item number on this form.

1. Facility Name: _____ NPDES # ME _____

2. Attach a plan of the treatment facility or discharge sources showing the location of each outfall and the receiving water. Please number each outfall with the corresponding number from the permit application.

3. For each outfall, provide the following information. Please use additional forms as necessary to describe all outfall locations.

A. Outfall name: _____ Outfall number: _____

B. Flow discharged. Average: _____ MGD Maximum: _____ MGD

C. Diameter of outfall pipe: _____ inches

D. Depth below mean low water at outlet: _____ feet

E. Describe any diffusers, mixers or similar structures used to disperse the effluent. Please include drawing or diagrams as appropriate.
