

## 2011-2012 Influenza Vaccine Ordering

August 1, 2011

The Maine Center for Disease and Prevention along with the Maine Immunization Program (MIP) is pleased to announce that influenza vaccines are now available for your order through ImmPact2. This document will give you the guidance on how to order the vaccine.

The federal CDC recommends everyone between 6 months through 64 years old to get annual influenza vaccination. Due to the fund source restrictions, the vaccines supplied by MIP will be focused on the following **populations**:

- All Maine children ages 6 months to 18 years old
- Employees of schools that provide onsite vaccine clinics on school days,
- Pregnant women and their partners (through health care providers who routinely care for pregnant women)
- Nursing home employees and residents
- Any Underinsured or Uninsured adult (if the patient's insurance does not cover vaccines or if the patient does not have insurance)
- All individuals served by Tribal health centers and Municipal Health Departments

**Specific vaccine presentations by MIP, their age indications approved by FDA, and MIP's recommendation for the age group (due to funding source restrictions):**

Trade Name/ NDC#	Age indications based on licensure of the product	Presentations	MIP ordering recommendation for specific patient population
Fluarix / 58160-0878-52	36 months +	0.50mL prefilled syringe	Children greater than 36 months and pregnant woman
Flu-Mist / 66019-0109-10	2-49 years	Single dose sprayer	Children greater than 24 months
Fluzone / 49281-0111-25	6-35 months	0.25mL prefilled syringe	Children 6-35 months
Fluzone / 49281-0011-50	36 months +	0.50mL prefilled syringe	Children greater than 36 months and pregnant woman
Fluzone / 49281-0388-15	6 months +	Multi-dose vial	All Adults

Please order only the amount that you will be administering. This will help minimize the amount of refrigerator space that you are using for storage and aid in reducing the amount of wasted doses at the end of the influenza season.

**How to Order Vaccine:**

All vaccine orders will be conducted through ImmPact2, which will also allow you to view the status of your vaccine order and receive notifications on when your order has been shipped. Before you place your order, be sure that your facility has submitted the 2011 Provider Agreement, has saved and submitted current temperature logs, and has reconciled your current inventory within the past 30 days.

When you create a new order you will see that influenza vaccine has been added as a choice to your list of vaccines that you are able to order.

Influenza vaccine is displayed as the following:

<b>Vaccine Listed In ImmPact2</b>	<b>Trade Name NDC#</b>	<b>Packaging</b>	<b>Manufacturer</b>
Influenza	Fluarix / 58160-0878-52	10 pack 1 dose TipLok syringe	GlaxoSmithKline
Influenza-Nasal	Flu-Mist / 66019-0109-10	10 pack 1 dose sprayer (Intranasal)	Medimmune, Inc.
Influenza-Unspecified	Fluzone / 49281-0111-25	10 pack 1 dose syringe	Sanofi Pasteur
Influenza-Unspecified	Fluzone / 49281-0011-50	10 pack 1 dose syringe	Sanofi Pasteur
Influenza-Unspecified	Fluzone / 49281-0388-15	10 dose vial	Sanofi Pasteur

**Creating a vaccine order:**

Under the Inventory section of the side menu in ImmPact2

- Select “Manage Orders” by clicking on the link
- Click “Create New Order” located in the middle of the screen
- Choose the influenza vaccine presentation and enter the dose amount that you would like to receive.
- After creating your order click “Submit Order”

All orders will be placed on backorder until the distribution center receives vaccine to fulfill the order. Once your order has been approved for shipment you will see the status of the order changed from backordered to shipped.

It is allowable to bill a reasonable administration fee provided that no patient is denied state supplied vaccine for inability to pay the administration fee. If the patient is MaineCare eligible you may not bill for more than \$14.37 for the administration fee.

If you need assistance accessing ImmPact2 please contact the Help Desk at 1-800-906-8754.

Thank you for your dedication to keep the citizens of Maine free from vaccine-preventable diseases. If you have any questions, please call the Maine Immunization Program at 1-800-867-4775 or email [flu.questions@maine.gov](mailto:flu.questions@maine.gov).
