To: Maine School Administrators/Nurses  
From: Maine Department of Education and Department of Health and Human Services  
Subject: NEW Maine School Immunization Requirements  
Date: April 12, 2018

The Maine Department of Health and Human Services and Department of Education have revised the Maine School Immunization Requirements rule to now include meningococcal meningitis disease. These changes further align Maine's immunization rules with current national recommendations to better protect the health of all Maine people. Meningococcal disease is a rare, but dangerous disease that strikes healthy young people without warning. It can affect all ages, but teens and young adults are at highest risk of getting the disease.

The following changes are effective for the 2018-2019 school year for all students attending a public or private school in the State of Maine:

- One dose of meningococcal vaccine MCV4 (serogroups A, C, W, and Y) is required for all students entering 7th grade.
- Two doses of meningococcal vaccine MCV4 are required for students entering 12th grade, with a minimum interval of 8 weeks between dose one and dose two. If the first dose of meningococcal vaccine was administered on or after the 16th birthday, a second dose is not required.

Attached for your convenience, is a notification letter that your school may use to inform parents/guardians of the above changes to the immunization rule. Additionally, please find the Frequently Asked Questions attached with more information.

As a reminder, no student is permitted to be enrolled in or attend a public or private school in Maine without providing either a certificate of immunization or a written medical, religious or philosophical exemption for each required school entry vaccine. Please ensure all 7th and 12th grade student records are updated by the first day of the 2018-2019 school year for this new meningococcal meningitis requirement.

If you have questions regarding this new meningococcal meningitis vaccine requirement, record keeping or immunization history reviews please contact Emily Poland, School Nurse Consultant at (207) 624-6688 or by email at [Emily.Poland@maine.gov](mailto:Emily.Poland@maine.gov).

If you have immunization specific questions regarding vaccine schedules or validity of any doses given to a student, please contact the Maine Immunization Program at (207) 287-3746 or (800) 867-4775 or by email at [ImmunizeME.DHHS@maine.gov](mailto:ImmunizeME.DHHS@maine.gov).

Thank you.
