11. Local Agencies shall facilitate service to homeless families/individuals by taking reasonable

steps to establish that the homeless facility meets the following conditions with respect to resident WIC participants:

- 11.1. The homeless facility does not accrue financial or in-kind benefit from a person's participation in the Program, e.g., by reducing its expenditures for food service

- because its residents are receiving WIC foods. Foods provided by the WIC Program are not subsumed into a communal food service, but are available exclusively to the WIC participant for whom they were issued.
- 11.2. The homeless facility places no constraints on the ability of the participant to partake of the supplemental foods and nutrition education available under the Program.
 - 11.2.1. Contact the homeless facility periodically to ensure continued compliance with these conditions.
 - 11.2.2. Request the homeless facility notify the State or Local Agency if it ceases to meet any of these conditions.
12. Migrant farm workers typically are employed in Maine during the summer and early fall crop season. Migrant workers frequently remain in the local area for a very short time.
- 12.1. It is essential that certification, transfer of eligibility, and receipt of WIC foods are received as expeditiously as possible. WIC benefits must be issued on the same day the migrant participant is certified.
 - 12.2. Local Agencies are required to make special efforts to reach out and serve the migrant population. Decisions about clinic hours and service coordination should be made in consultation with area migrant program coordinators and other organizations in the service area.
 - 12.3. Special outreach and referral efforts implemented by a Local Agency to provide access to services for migrant workers and their families shall be documented in the Local Agency agreement.
 - 12.4. The State Agency is responsible for monitoring migrant services provided by Local Agencies.
 - 12.5. Local Agencies with a significant migrant population must conduct and document specific outreach efforts, which ensure the number of migrants enrolled adequately represent the migrant population in the service area.
13. The WIC program shall collaborate with the Children with Special Health Needs Program in the following manner:
- 13.1. The Children with Special Health Needs program is designed to help families who have a child with a chronic, long-term disease or condition that needs subspecialty physician treatment and whose condition can be improved by such treatment.
 - 13.2. A diagnosis does not automatically qualify a child for services.
 - 13.3. The program will pre-authorize payment for formula or special medical foods under certain specific conditions for children who have a diagnosis of an error of inborn metabolism and who are without MaineCare. Staff should call the Children with Special Health Needs Program at 287-5357 or 1-800-698-3624 to discuss a referral.
14. The Local Agencies must make every effort to alleviate barriers to WIC services for all eligible and potentially eligible individuals during critical times of growth and development.
