9	Nephritis, nephrotic syndrome and nephrosis (N00- N07,N17-N19,N25-N27)	45	21.8	15.0	10.8 - 20.3
10	Suicide (X60-X84,Y87.0)	37	17.9	15.5	10.6 - 21.9

Data Source: Maine CDC, Data Research, and Vital Statistics.

ICD-10 codes are grouped by ICD-10 113 Cause List.

Crude rates are deaths per 100,000 population.

Age-adjusted rates are deaths per 100,000 population age-adjusted to the U.S. 2000 standard population.

95% CI: 95% confidence interval of the rate.

DNR: Data not reliable; death rates are suppressed as unreliable by the WONDER system when the numerator is 20 or less.

Cause of death categories with numerators less than 10 are suppressed by the WONDER system to protect privacy and are not reported on this table.

Counties with fewer than 10 leading causes are due to small numbers. \* ICD codes for terrorism are preceded with \*\*.
