MaineCare Provider Directory

Click [here](#) or use the QR code to search the **MaineCare Provider Directory**. Use it to find dental providers and other health providers who accept MaineCare. You can filter by specialty, city, county, and ZIP code. **Search results may take a few minutes to load.**

About This Directory

If you do not have a regular dentist, this directory can help you get the dental care you need. You can also use it to help family, friends, or clients find dental care. Most of the resources are for people who receive or are eligible for MaineCare. There are a number of clinics and agencies throughout the state of Maine that either directly provide dental care services or can help people access care.

This directory describes clinics and agencies, the services they provide, eligibility guidelines, and where to learn more. It includes state-funded assistance programs, tribal health programs, rural community health centers, and other sources of care. This document is updated every two years, details included may not remain accurate, but we hope it provides a start in finding appropriate resources.

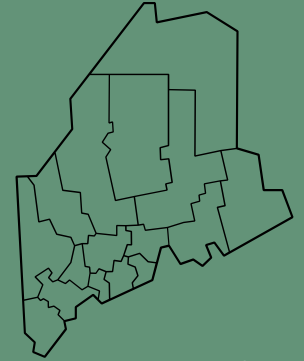

The directory was updated Fall 2025, and was accurate at publication. Inclusion in this directory does not guarantee services will be provided.

**** If you need a specific service, reach out directly to the organization, regardless of what is listed in this directory. If details were not available, that section of the directory was left blank. Some information provided may not always be accurate. ****

Using This Directory

This directory is broken into four main categories in the following order:

1. **Indian Health Services**
2. **School Based Services**
3. **Preventive (Dental Hygiene) Services**
4. **Dental Centers and Clinics**

For each category, the directory is organized by county. Please note some organizations offer services in more than one county. Some organizations also offer mobile dental services – as noted under county. The following format will be used throughout:

County	Name, Address, Phone Number, Website	Hours of Operation	Services Offered	Population Served	Insurance Accepted
--------	--	--------------------	------------------	-------------------	--------------------

Services offered include four main categories:

1. **Preventive Services:** may include teeth cleaning (scaling and polishing), oral hygiene education, fluoride treatments, sealants, dental X-rays, and oral cancer screenings.
2. **Restorative Services:** may include repairing or replacing damaged or missing teeth, including fillings, crowns, bridges, dental implants, and dentures, as well as procedures like root canal therapy.
3. **Emergency Services:** may include treating toothaches, broken or chipped teeth, knocked-out teeth, lost fillings or crowns, dental abscesses, and soft tissue injuries.
4. **Specialty Services:** may include areas of dentistry requiring advanced training beyond general dental practice, focusing on specific aspects like root canals, gum disease, orthodontics, and oral surgery, among others.

Indian Health Services ** ONLY serves those recognized by a federally qualified tribe **

County	Name, Address, Phone Number, Website	Hours of Operation	Services Offered	Population Served	Insurance Accepted
